

JD EDWARDS ENTERPRISEONE INTEGRATION – ORACLE TRANSPORTATION MGT

ORACLE®

JD EDWARDS ENTERPRISEONE

KEY BENEFITS

- Reduce transportation costs
- Increase asset utilization
- Improve supply chain efficiencies and reliability
- Improve carrier relations
- Increase customer satisfaction
- Flexible global fulfillment options
- Lower total cost of ownership
- Drive continuous improvement

You operate in a global environment and to support your business operations you run a diversified supply chain environment that is growing more complex. Everyday you optimize and analyze operational aspects of this supply chain as you execute and react to changes, problems and issues across the planet to support your customers' delivery needs.

The Issue: Servicing Your Complex Global Transportation Network

Prompt, reliable delivery can mean the difference between repeat business and a one-time sale. Hence, the ability to plan, optimize, execute, analyze and react to every aspect of how goods flow through a supply chain is critical component in the logistic global environment. So how do you achieve broad logistics capabilities with deep transportation management functionality and still support your customer's needs?

The Solution: Integrated Industry Leading Transportation Solution

Whether your needs are for a single-mode business or geography or for a complex multi-mode, multi-business global network, Oracle Transportation Management (OTM) is the solution. With Oracle's JD Edwards EnterpriseOne Transportation integration to Oracle Transportation Management, you gain control of your transportation and logistics operations while minimizing costs and eliminating inefficient and redundant procedures. How do you achieve this? JD Edwards EnterpriseOne provides choices:

1. Implement JD Edwards EnterpriseOne integration to OTM. No implementation to JD Edwards EnterpriseOne Transportation is required.
2. Continue using the JD EnterpriseOne Transportation Module without the OTM integration.
3. Users can run JD Edwards EnterpriseOne and OTM systems in tandem.

Added Value Through Integration and Collaboration

Once coupled with the JD Edwards EnterpriseOne Sales Order Management, JD Edwards EnterpriseOne Procurement, JD Edwards Enterprise One Financials and Oracle Transportation Management, you have the ability to streamline the entire logistics planning and execution process—from item availability to final delivery and financial settlement. Therefore providing for a complete, integrated fulfillment execution solution.
