- Streamlined data entry
- Reduced total cost of ownership
- Enterprise-wide project, portfolio, and resource management transparency
- On-time, within budget project delivery

Oracle's Primavera Inspire for SAP simplifies project, portfolio and resource management through its flexible integration of Primavera project portfolio management applications with SAP's enterprise resource planning solutions. To help customers more effectively integrate their Primavera and SAP applications, Oracle Primavera offers customers several customizable workshops.

Primavera Inspire for SAP: Accurately Forecast Project Cost, Schedule and Resources

Primavera Inspire for SAP integrates Oracle's Primavera P6 Enterprise Project Portfolio Management application with SAP's ERP Project System and Plant Maintenance modules to help companies accurately forecast cost, schedule and resources to completion, while also providing enterprise-wide project transparency.

Based on enhanced Oracle Primavera API technology and SAP's Process Integration (PI) platform for workflow and data transfer, Primavera Inspire for SAP is a business process integration solution that provides an intuitive and scalable interface between the SAP and Primavera platforms, allowing for the timely exchange of information between Primavera and SAP applications.

Primavera Inspire for SAP Integration Assessment

Tremendous benefits exist for companies who integrate their Oracle Primavera applications with their back-office ERP solution. Oracle Primavera offers SAP customers who are looking to add essential project, portfolio and resource management capabilities to their environment, a two-day best practices workshop to outline how best-in-class organizations are improving interoperability between Primavera applications and SAP. Our expert team will arrive ready to engage in a detailed discussion of your current business processes and the desired state of business processes post Oracle Primavera and SAP integration. Our team will document their findings during the workshop and send a final workshop report with all their recommendations and suggested improvements. We will also capture the anticipated business value for each of the proposed changes.

The workshop deliverables include five days of service broken into the following three sections:

- One-day of preparation – Assess status quo materials provided by customer and then map it to best-in-class business processes. Some systems set-up on our side will also be conducted to best replicate the customer's environment.
- Two-day onsite workshop – Collaborative business process exercise with

**ORACLE'S PRIMAVERA
INSPIRE FOR SAP**

By integrating Oracle's Primavera project portfolio management applications with SAP's enterprise resource planning solutions, Primavera Inspire for SAP makes forecasting costs, schedules and resources easy for all project team members.

As a result, project managers are able to make better-informed decisions, ensuring that an organization's projects remain constantly aligned with its business objectives.

RELATED PRODUCTS

Primavera Inspire for SAP works with the following Primavera project portfolio management applications.

- Primavera P6 Enterprise Project Portfolio Management
- Primavera P6 Professional Project Management

our functional leads to ensure streamlined integration mappings and desired capabilities are achieved.

- Two-day write-up of workshop findings – Final business process optimization blueprint will be provided, which can then be utilized by the customer for their integration requirements.

Primavera Inspire for SAP Premium Package

Implementation of Primavera Inspire for SAP requires a well defined and documented business and integration process. The Primavera Inspire for SAP Premium Package combines an upfront assessment, as well as an integration process definition that extends to the field mapping level. In addition, Oracle Primavera and our integration partner, Vesta Partners, will act in a supporting role to the project manager and provide continuous quality assurance throughout the project.

Primavera Inspire for SAP Customer Specific Training

Since every Primavera Inspire for SAP implementation is unique, Oracle Primavera and Vesta Partners will provide customer specific training the focuses on the entire business process. This week-long hands-on training provides a guideline on how to use SAP, Primavera Inspire for SAP, and Primavera P6 Enterprise Project Portfolio Management collectively so that all intended benefits are gained. In preparation, Vesta Partners will spend one-week onsite to set-up the test environment and customize the training program to meet the unique customer requirements.
