

Oracle User Productivity Kit & Oracle Tutor

Oracle Keynote

CHAPIN THEATER

Monday May 4

9:15 a.m. – 10:30 a.m.
Welcome General Session

Charles Phillips
Oracle President

Oracle DEMOgrounds

ORACLE BOOTH 4780

Demo Area 1 – Oracle User Productivity Kit – Accelerate User Adoption

- Create system documentation, simulations and performance support with a single authoring session
- Maximize ROI and mitigate risk through all phases of the project lifecycle
- Reduce costs associated with software implementations and be productive Day One

Demo Area 2 – Oracle Tutor – Process Documentation

- Create, modify, and maintain business process documentation
- Improve employee performance and effectiveness with process flows, policies, and procedures
- Streamline application implementations with pre-built model content

Hands-On Labs

W414C

Monday May 4

10:45 a.m. – 12:45 p.m.
(Part 1 – 10:45 a.m. – 11:45 a.m.)
(Part 2 – 11:45 a.m. – 12:45 p.m.)
Be Productive Day One with Oracle User Productivity Kit and Oracle Tutor

In this hands-on lab, you will learn how Oracle User Productivity Kit and Oracle Tutor work together to maximize your applications investment, minimize risk, speed ROI, and increase employee productivity from Day 1. Learn hands-on how Oracle Tutor captures people-to-people activities, or business processes, and Oracle User Productivity Kit captures people-to-system tasks. Learn how to link the outputs of these two applications to define how the applications fit in with users' day-to-day jobs. Participation is on a first-come, first-served basis.

1:15 p.m. – 3:15 p.m.
(Part 1 – 1:15 p.m. – 2:15 p.m.)
(Part 2 – 2:15 p.m. – 3:15 p.m.)
Be Productive Day One with Oracle User Productivity Kit and Oracle Tutor

In this hands-on lab, you will learn how Oracle User Productivity Kit and Oracle Tutor work together to maximize your applications investment, minimize risk, speed ROI, and increase employee productivity from Day 1. Learn hands-on how Oracle Tutor captures people-to-people activities, or business processes, and Oracle User Productivity Kit captures people-to-system tasks. Learn how to link the outputs of these two applications to define how the applications fit in with users' day-to-day jobs. Participation is on a first-come, first-served basis.

3:45 p.m. – 4:45 p.m.
Accelerate Your Implementation/Upgrade with Oracle UPK, Oracle Tutor and Prebuilt Content

Learn how User Productivity Kit content for select Oracle Applications can accelerate implementations or upgrades. Use this content as baseline system transaction flows early in a project to educate team members and to help facilitate requirements gathering for fit/gap planning. Learn how to modify and update the content as your application evolves to create your user acceptance test scripts, transaction recordings, job aids, classroom training, online training, and support materials post-go-live. Participation is on a first-come, first-served basis.

Tuesday May 5

1:00 p.m. – 2:30 p.m.

Oracle User Productivity Kit Goes Global: Localize and Translate Your Oracle UPK Content

In this global economy, it's challenging to create localized system documentation and training materials to support users around the world. In this hands-on lab, learn how Oracle User Productivity Kit meets that challenge with its powerful localization and translation capabilities. Compress time to deployment and accelerate multilanguage implementations with translated system process documents, test scripts, simulations, training manuals, and performance support created with Oracle User Productivity Kit. Participation is on a first-come, first-served basis.

Wednesday May 6

11:00 a.m. – 12:30 p.m.

Oracle User Productivity Kit: Advanced Topics

This advanced hands-on lab shows how to create customized Oracle User Productivity Kit publishing styles and customized published outputs to reflect your company's standards. Examples include creating publishing styles, customizing the Oracle User Productivity Kit player interface, and customizing document output formats. You'll also learn what Oracle User Productivity Kit's help menu integration is, understand how it is set up, and discover how context sensitivity works between Oracle applications and Oracle User Productivity Kit. Participation is on a first-come, first-served basis.
