

# ORACLE CONTENT MANAGEMENT IMPLEMENTATION ADVISOR

## Oracle Expert Services

### AT A GLANCE

Utilize Oracle's Content Management Implementation Advisor offering to facilitate success and speed the deployment of your Oracle initiative via on-call, on-demand access to best practices and Oracle subject matter expertise.

*Oracle Content Management is a portfolio of industry-leading solutions that delivers a new level of integration and productivity across the entire spectrum of unstructured content. Oracle Content Management Implementation Advisor offers expert project oversight throughout the entire lifecycle of your content management implementation to help you effectively implement and use your new solution.*

### Overview

Oracle is a global provider of content management software solutions that drive rapid success for customers by enabling fast implementations and generating quick, broad user adoption. With Oracle Content Management, customers can easily deploy multiple line-of-business applications—such as public Web sites, secure intranets and extranets, compliance processes and marketing brand management—and also scale the technology to support multi-site management and enterprise-wide content management needs.

The Oracle Content Management Implementation Advisor offering is ideal if you possess the necessary resources to implement your Oracle solution, and are interested in some expert project oversight. The Oracle Content Management Implementation Advisor will review and provide feedback on your project plan, monitor your overall project plan and execution and help you effectively use the functionality offered in Oracle's Content Management solutions.

### Scope of the Offering

For this offering, you will purchase a set number of Oracle Implementation Advisor hours that you can allocate throughout the lifecycle of your project. You may then utilize these hours to access an Advisor at any time throughout the project, for guidance and input. The Advisor can participate in key implementation activities, status meetings, and reviews as well as act as a sounding board for you. Specific activities in which the Advisor may be involved will vary based upon your project needs.

### Key Activities

- Discuss your expectations, available resources and project plan
- Review your project plan
- Attend key project status and steering committee meetings
- Facilitate additional Oracle subject matter expertise involvement as needed

- Participate in reviews at key project milestones
- Perform long range planning/roadmap activities

### Key Benefits

- Access to specific implementation expertise throughout the project lifecycle
- Cost-effective, flexible way to leverage Oracle expertise and best practices as needed
- Decrease implementation time
- Mitigate risk associated with lack of in-house expertise

### Major Deliverables

- Advice and guidance on an ongoing basis
- Design reviews and quality assurance at specific project check points
- Participation in project status meetings
- Recommendations on project needs and activities (architecture, install, etc.)
- Recommendations on use of Oracle resources (education, consulting, etc.)
- Review of your project plan

### Getting Started

Leverage Oracle's methods, tools, and extensive experience with customer implementations across diverse industries and geographies. Tight integration across Consulting, Development, Support, Education, and Global Delivery puts the entire Oracle team behind your success.
