

ORACLE E-BUSINESS SUITE TECHNICAL READINESS ASSESSMENT

Oracle Expert Services

AT A GLANCE

- Identifies critical areas to help reduce technical risk while implementing Oracle E-Business Suite applications
- Compares your Oracle Applications system to typical healthy implementations with similar business requirements
- Reviews critical infrastructure areas (hardware, network, storage, database, application servers and the concurrent managers)
- Documents the potential issues that may be uncovered during discovery sessions
- Provides recommendations to mitigate any risks that are identified

Oracle's E-Business Suite Technical Readiness Assessment offers experienced, professional Oracle consultants who will analyze your application configuration and technical architecture to increase stability, functionality, and performance of your Oracle E-Business Suite implementation. This low-risk, high-value service allows you to harvest the benefits of Oracle Applications and Technology to meet your organizational goals.

Overview

Deploying new business applications includes scheduling and planning for activities as complex and diverse as custom development, data conversions, business process confirmations, acceptance testing, performance testing, and architecture validation. Mapping the business requirements to the functionality of the applications and the technology provided by the database and system environment are also substantial efforts. Oracle Consulting offers experienced, professional resources to help you successfully deploy your Oracle E-Business Suite applications.

The Oracle E-Business Suite Technical Readiness Assessment is a time-boxed engagement to help your technical team implement and support Oracle's E-Business Suite applications. Together, the Oracle experts and your team will consider the options applicable to your business needs so that your business can take full advantage of the Oracle E-Business Suite applications features. The Oracle experts will help you identify and eliminate potential pitfalls to a successful implementation.

Scope of the Offering

The Oracle E-Business Suite Technical Readiness Assessment offers highly trained and experienced Oracle consultants who will collaborate with your technical team to deliver Oracle E-Business Suite applications running on Oracle, in your environment.

Our experts will target this service toward issues related to production readiness and Oracle E-Business Suite application stability, functionality, and performance. Not only will our expert consultants work with your team to study your existing IT environment and planned deployment, but they will also address other considerations, as part of the discovery effort.

Throughout this effort, the Oracle Consulting team will involve your team in the technical assessment of the Oracle E-Business Suite applications. Additionally, Oracle's experts will generate documentation—so that your team has tailored reference material—about the findings and observations that result from the assessment, and they will recommend enhancements and a suggested implementation priority.

ORACLE CONSULTING DIFFERENTIATORS

- Oracle Expertise in delivering best practices using standardized methodology, process, tools, and resources
- Breadth of Services for Your Needs to integrate functional, technical, and change management services necessary for optimal user adoption
- Aligned with Your Goals with a cost-effective and comprehensive upgrade solution resulting in project success

Major Deliverables

This Oracle Expert Service delivers:

- An assessment of the Oracle E-Business Suite applications on-site, executed with the full involvement of your technical team, in the form of a review of your production or pre-production environment
- Education on database features and reference materials relevant to your use of Oracle Applications and Technology
- A configuration assessment of Oracle E-Business Suite to help you determine the best application of features and settings to help you meet your business requirements

How We Are Different

The Oracle Consulting team is focused exclusively on Oracle Technologies, and we have the experts that others turn to for leading practices in Oracle software implementations. We know Oracle best and can provide your business with tightly integrated, comprehensive, superior services throughout your ownership experience.

Getting Started
