Oracle's PeopleSoft Enterprise Learning Management Rapid Start solution enables organizations to proactively administer, deliver, and track learning initiatives throughout their enterprise. Take advantage of the powerful learning management architecture and features with this accelerated implementation approach. Oracle can help ensure your implementation success and accelerate time-to-value by leveraging our best-in-class methodology, tools, and resources.

Overview

The PeopleSoft Enterprise Learning Management Rapid Start solution is a great way to condense the PeopleSoft Enterprise Learning Management deployment and quickly take advantage of the powerful product capabilities. The PeopleSoft Enterprise Learning Management Rapid Start solution allows organizations to proactively manage learning initiatives, ensuring that employees acquire knowledge and skills consistent with corporate objectives. When the implementation is complete, administrators can manage courses in the catalog, learners can browse and search the course catalog, and managers can track the progress of their team members.
