- Oracle Business Intelligence Workshop for PeopleSoft Enterprise
- Oracle Business Intelligence for PeopleSoft Enterprise Rapid Start

Are you considering an implementation of Oracle's PeopleSoft Enterprise Performance Management (EPM)? Are you looking to increase the success and return on your existing investment of EPM technologies? Are you upgrading or migrating to a new release of EPM? Are you considering an extension of your EPM platform, reporting, or end-user business intelligence applications throughout your organization? If the answer to any of these questions is "yes" and you need some expert assistance in developing a solid strategy to realize your goals, then the Oracle PeopleSoft EPM Strategy Workshop is a service designed for you.

Overview

The Oracle PeopleSoft EPM Strategy Workshop service from Oracle Consulting is a tailored, in-depth review of your current EPM system and strategy. Oracle's EPM specialists will collaborate with key individuals and groups responsible for your data warehouse strategy. We will work with you to understand how Oracle's PeopleSoft EPM Warehouses (Financials, Human Capital Management, Supply Chain & Campus Warehouse Solutions) can address your business drivers and support the reporting needs of your organization.

Oracle has designed the Oracle PeopleSoft EPM Strategy Workshop service to be comprehensive yet flexible. You can tailor the workshop to create a service that best meets your organization's requirements and addresses the specific queries or concerns you may have about your data warehouse system. The Oracle PeopleSoft EPM Strategy Workshop is designed to help you map out your warehouse, reporting, and analytics strategy as well as to help you to stay on course and drive more immediate value from your software investment.

Scope of the Offering

The Oracle PeopleSoft EPM Strategy Workshop is designed to provide independent, objective feedback to make all project participants more successful. Experienced Oracle consultants will conduct the assessment. At the start of the project, our consultants will work with you to identify which aspects of your warehousing solutions you wish to focus. With this input, we will then prioritize and concentrate on your most important assessment areas.

The Oracle PeopleSoft EPM Strategy Workshop process typically includes:

- Review of the overall business requirements, expectations of the business users, and how these requirements have been translated into a project plan and system design.

ORACLE CONSULTING DIFFERENTIATORS

- Oracle Expertise in delivering best practices using standardized methodology, process, tools, and resources
- Breadth of Services for Your Needs to integrate functional, technical, and change management services necessary for optimal user adoption
- Aligned with Your Goals with a cost-effective and comprehensive solution resulting in project success

- Technical review of the existing system, including a review of data sources, ETL processes, EPM design and architecture, and end-user access tools and applications. Review of the project development methodology and approach, including the organizational and management aspects.
- Objective, independent review of your EPM project by experienced practitioners who typically:
 - Verify the current status of the EPM implementation. Review the EPM design and architecture in the context of the business requirements and analyze related reporting needs.
 - Identify the source data systems and ETL challenges of the project and check that your organization is taking an appropriate approach to capture and load source data into EPM.
 - Identify both technical and management risks to the successful completion of the project. Recommend actions to eliminate or mitigate those risks.

Expected Benefits

Customers that have taken advantage of the Oracle PeopleSoft EPM Strategy Workshop benefit from:

- Reduced risk from a time boxed service designed to provide high impact recommendations on how to maximize the return on your investment.
- Receive an objective review conducted by experienced Senior Data Warehouse Architects with experience at many of Oracle's largest data warehouse implementations.

How We Are Different

The Oracle Consulting team is focused exclusively on Oracle Technologies, and we have the experts that others turn to for leading practices in Oracle software implementations. We know Oracle best and can provide your business with tightly integrated, comprehensive, superior services throughout your ownership experience.

Getting Started

Leverage Oracle's methods, tools, and extensive experience with customer implementations across diverse industries and geographies.
