“Implementing Oracle E-Business Suite provided a solid financial and manufacturing business system foundation for us. With Biztech, our recent upgrade has enabled growth for years to come. This major upgrade was professional and fast.” – Mark Wetzels, Business Applications Manager, Accu-Sort Systems, Inc.

Accu-Sort Builds Foundation for Growth with Unified Financial and Manufacturing Platform

Accu-Sort Systems is a pioneer in reliable auto ID and high-speed compliance solutions with more than three decades of experience deploying and supporting scanning and tracking solutions in distribution, warehousing, manufacturing, and retailer environments. The company is also an established provider of convergent RFID and bar code systems with more than 50 RFID installations worldwide.

Challenges

- Replace outmoded MS-DOS manufacturing system with flexible Web-based platform
- Automate inventory management processes and reduce cycle counting time
- Consolidate disparate financial databases and create a single source of business information
- Improve productivity by reducing duplicate data entry
- Create a scalable technology platform to support steady business growth

Solution

- Implemented a comprehensive set of Oracle E-Business Suite applications, integrating and automating the company’s manufacturing, inventory, financial and service operations
- Consolidated multiple disparate databases, adopting Oracle Database technology to create a single source of business data with almost unlimited growth potential
- Adopted industry-standard best practices embedded in Oracle E-Business Suite applications
- Streamlined inventory management by adopting industry-leading cycle counting and physical inventory systems that allow for review, recount and acceptance processes
- Enabled accountants to focus financial analysis rather than manual journal reconciliation
- Set the foundation for introducing Web-based CRM applications, including Oracle TeleService and iSupport
- Benefited from fast, proven implementation methodologies and the industry-specific expertise provided by Oracle partner BizTech
