China Spring Factory

Founded in 1937, China Spring Factory (CSFSC) is China's largest spring manufacturer, specializing in automotive suspension springs, engine valve springs, stabilizer shafts, and other types of specialty springs. CSFSC supplies springs to the Chinese factories of the world's top automotive companies and sells its products around the world.

Challenges

- Improve information-sharing throughout the organization
- Streamline operations to improve cooperation across business units
- Increase efficiency
- Reduce manufacturing and management costs
- Improve enterprise management
- Develop an open, flexible, and highly scalable platform

Solution

- Implemented Oracle Database and Oracle Discrete Manufacturing to develop fast, efficient application systems, increasing competitive advantage
- Established an inventory management system and cash flow management system with Oracle iProcurement and Oracle Inventory Management
- Integrated purchasing, manufacturing, inventory, sales, and financial information, resulting in a single information flow that enables sharing data in real time
- Established control-based budget management using Oracle Financials, enabling management to keep abreast of CSFSC's financial situation and address problems before they arise
- Integrated operations and workflows to meet fast-growing management and application needs
- Ensured flexibility and transparency in operations
