“With Oracle E-Business Suite applications, we have more accurate company information, which leads to more accurate and nimble decision making.”

– Brian Alikhani, IT Director,
Corsair Memory, Inc.

Corsair Memory Improves Decision Making with Improved Visibility into Key Performance Indicators

Corsair Memory, Inc. has been a leader in the design and manufacture of high-speed modules since 1994. Corsair supplies DRAM memory, flash memory, power supplies, and water-cooling solutions for high-performance gaming systems, mission-critical servers, and portable notebooks. Headquartered in the United States, the company has operations in Taiwan, the Netherlands, and Switzerland.

Challenges

- Consolidate disparate legacy systems to create a stable environment
- Improve product shipment capabilities
- Improve the integrity of financial, manufacturing, and planning data to enable more timely and accurate business decisions
- Provide a scalable solution that can keep pace with company growth and the corresponding increase in data

Solution

- Implemented Oracle E-Business Suite applications for financial, manufacturing, procurement, and supply chain management to replace multiple, disparate systems with a single instance, integrated platform that supports multiple sites
- Expanded visibility of critical business information from across the enterprise
- Ensured a reliable and highly scalable application infrastructure that can grow with the company
- Minimized customizations with a 99% out-of-the-box solution
- Improved visibility into key performance indicators (KPI), enabling better decision making based on real-time data
- Gained better control over Sarbanes-Oxley compliance requirements
- Accelerated product shipments
- Enabled more effective execution of global supply chain strategy
- Streamlined financial business processes, improving efficiency and providing management with a clear picture of the company’s financial position
- Worked with DAZ Systems, Inc. to ensure a rapid implementation, deploying the solution in less than five months
