Industry:

Public Sector

Employees:

3,800

Oracle Products & Services:

Oracle Database
Oracle Application Server
Oracle Portal

“Oracle Portal turned out to be the perfect tool for us. It provides personalized access to very specific information. Not only have we realized significant economies on the time and paper spent on distribution of information, we also benefit from improved and faster knowledge sharing.” – Geert Verthé, Administrator, and Philippe Gysbergs, Advocate General, Council of Attorneys General

Council of Attorneys General Streamlines Internal Communication with Powerful Web Portal

The Council of Attorneys General of Brussels, Belgium, oversees the consistent execution of departmental guidelines for criminal justice and coordinates management of the Office of Public Prosecutors. It also informs and advises the Minister of Justice regarding matters related to the Office of Public Prosecutors.

Challenges

- Develop an easy-to-use, reliable, and secure internal portal in all three national languages of Belgium—Dutch, French, and German—to facilitate internal communication for the organization’s 3,800 magistrates and employees
- Eliminate duplication of documents and reduce administrative overhead

Solution

- Implemented Oracle Portal to create an easy-to-manage, reliable and secure Web Platform—called Omptranet—that facilitates communication for the agency’s employees
- Streamlined document management and significantly reduced paper-based processes, resulting in improved productivity, faster knowledge sharing, and reduced costs
- Enable easy and flexible extension of the intranet portal with custom applications
- Implemented a turn-key solution so as not to strain the agency’s limited IT resources
