“Oracle is not just another vendor. They really care about our success and our customers’ success. Oracle is a true partner.”

– Joong Lee, Chief Architect and Vice President of Engineering, EPL, Inc.

EPL, Inc. Reduces Service Deployment Time By 80%

EPL, Inc. is at the forefront of delivering technological solutions to the credit union industry. For over 25 years, EPL has provided premier solutions to credit unions with a focus on open architecture, power, and versatility. EPL provides turnkey solutions for its customers and in-house customer market.

Challenges

- Migrate computing systems to an open architecture to support projected growth
- Provide fast, reliable, and highly available solutions for the financial services industry
- Reduce implementation risk and deliver significant cost savings
- Expand support and functionality for customers

Solution

- Implemented Oracle Application Server 10g and Oracle Discoverer 10g to reduce time needed to deploy services to customers by 80%
- Provided an integrated technology stack to reduce implementation risk and deliver significant cost savings
- Provided ability to integrate with other vendors and leverage Web services to set the foundation for moving to a service-oriented architecture
- Reduced training time, due to the solution’s intuitive user-interfaces
- Decreased product development time significantly, allowing for 55 product releases in one year
- Allowed customers to conduct ad hoc queries via Oracle Discoverer 10g
- Improved reporting and publishing functionality, while allowing users to personalize their reporting views
- Implemented Oracle Business Intelligence 10g and Oracle Discoverer 10g in just 90 days to support more than 600 users
