**“Amazing provided the knowledge transfer and training we need to continually leverage the extensive industry capabilities of Oracle’s JD Edwards EnterpriseOne applications.”** – Jay Spadaro, Vice President of IT, Ferraz Shawmut, Inc.

## Ferraz Shawmut Achieves Major Information Technology Leap with Out-of-the-Box Solution

Ferraz Shawmut is one of the world's leading suppliers of innovative circuit protection solutions, from industrial and semiconductor fuses to fuse holders and accessories, disconnect switches, and devices for surge protection and thermal management. The company is a subsidiary of le Carbone Lorraine.

### Challenges

- Replace outdated, highly customized legacy systems with a single information platform that supports global operations
- Support unique order entry and pricing requirements without software modifications
- Transition to updated systems without disruption to order and fulfillment operations in an extremely time sensitive, competitive business

### Solution

- Leveraged Oracle Partner Amazing USA to deploy full set Oracle’s JD Edwards EnterpriseOne applications on time and under budget
- Accomplished major technology and feature-function leap with no business disruptions
- Maintained self-sufficiency by upgrading the skill set of internal IT staff using Amazing USA’s knowledge transfer and training expertise
- Implemented JD Edwards EnterpriseOne applications for sales order management and advanced pricing, meeting unique needs with out-of-the-box functionality
- Gained ability to access and export business data while integrating with Windows environment
- Expanded financial management capabilities, gaining ability to drill down into transaction details for audit purposes
- Established implementation template to bring more business entities in house without need for outside consulting services
- Easily integrated business-critical EDI processes to core enterprise applications
