Meander Medisch Centrum Digitizes Procurement and Streamlines Financial Process

Meander Medisch Centrum is a general hospital with four locations: one in Baarn, two in Amersfoort and one in Soest. The medical centre guarantees excellent hospital care for about 320,000 residents in the area, by means of about 200 medical specialists, more than 3,200 professional employees and countless volunteers. Meander works together closely with family doctors, nursing homes and the regional healthcare insurance company, among others.

Challenges

- Implement a future-ready software platform for procurement logistics and finance
- Digitize the procurement workflow, including support for hard-to-count goods such as linen
- Automate the billing workflow

Solution

- Engaged Oracle partner Inter Access to develop a custom-built system based on Oracle software
- Implemented decentralized registration of procurement requests throughout the organization
- Integrated automated supply chain for all departments by using scanners into Oracle using Supply Chain Planning
- Established connection with Hospital Information System (ZIS) for debtor management
