

ORACLE DATABASE INSTALLATION SERVICE

Oracle Expert Services

AT A GLANCE

- Professional installation of the Oracle Database by Oracle experts
- Configuration to meet your specific needs
- Installation completed quickly and according to best practice
- Knowledge of Oracle best practices transferred to your team

Are you interested in installing the market-leading Oracle Database? Does your team lack the time or the technical ability to conduct the installation? If yes, then the Oracle Database Installation service is for you. Our experts will install the Oracle Database for you and configure it to your specific requirements, utilizing the latest Oracle best practices.

Overview

Perhaps your existing systems architecture is nearing its performance limit, or maybe you are implementing new Oracle Applications. Even if your department lacks Oracle skills, with our Oracle Database Installation service you can be up and running quickly and confidently on the Oracle Database.

With the Oracle Database Installation service, Oracle experts will install the Oracle Database Server on your premises and configure it to your requirements, ready for you to use. For an Oracle Database 10g (or higher) installation we will also create a fully configured database administration console.

In order for the installation to be as rapid and successful as possible, we will discuss your specific requirements and expectations prior to the installation. During the installation, we will transfer our expert knowledge of the Oracle Database and Oracle best practices to you and your team.

Should you wish to learn more Oracle skills following your implementation of the Oracle Database, you can investigate the many courses offered by Oracle University to select the training that best suits you and your team.

Scope of the Offering

The aim of the Oracle Database Installation service is to conduct a professional standard installation of the Oracle Database in the shortest possible time, based on your specific requirements. It comprises the following elements:

- Analysis of your hardware environment and recommendations
- Installation of the server software
- Creation and configuration of an Oracle Database
- Brief introduction to the use and management of the Oracle Database
- Establishment of management procedures
- Creation of a database management console
- Brief introduction to Oracle Enterprise Manager

ORACLE CONSULTING DIFFERENTIATORS

- Oracle Expertise in delivering best practices using standardized methodology, process, tools, and resources
- Breadth of Services for Your Needs to integrate functional, technical, and change management services necessary for optimal user adoption
- Aligned with Your Goals with a cost-effective and comprehensive upgrade solution resulting in project success

- Testing of the new Oracle environment to check basic working functionality

The Oracle Database Installation service does not include the following:

- Conversion or importation of data from existing database(s)
- Creation of data schemas
- Creation or implementation of a security strategy
- Installation of Oracle Management Servers
- Product training and workshops

Requirements

The customer must provide a supported platform with an operating system that has been patched to the Oracle specified requirements.

Major Deliverables

- A basic installation of the Oracle Database
- Shell scripts for administrative staff
- Report describing the installation and database configuration
- Proof of functionality through demonstrations

How We Are Different

The Oracle Consulting team is focused exclusively on Oracle Technologies, and we have the experts that others turn to for leading practices in Oracle software implementations. We know Oracle best and can provide your business with tightly integrated, comprehensive, superior services throughout your ownership experience.

Getting Started

Leverage Oracle's methods, tools, and extensive experience with customer implementations across diverse industries and geographies. Tight integration across Consulting, Development, Support, Education, and Global Delivery puts the entire Oracle team behind your success.
