The Oracle Database Upgrade Services – Upgrade Factory lets you take a systematic approach to your data center upgrade: it enables you to move your entire Oracle infrastructure to Oracle Database 10g or Oracle Database 11g efficiently, smoothly and in a controlled manner. Let us help your business take advantage of the improvements in manageability, performance and resilience introduced in the latest Oracle releases. We will assess your current environment, plan the required steps, then upgrade and test your new environment.

Overview

Do you want to take advantage of the new features in Oracle Database 10g or Oracle Database 11g?

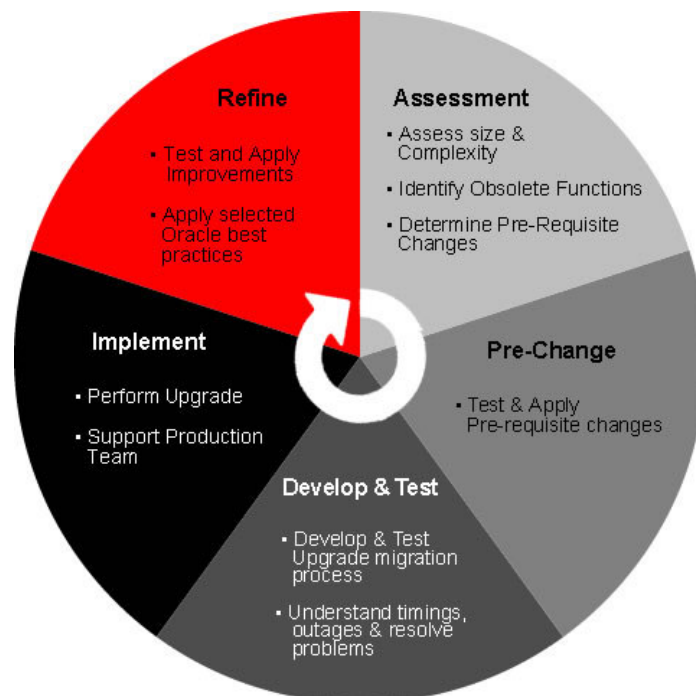

Figure 1: A systematic approach to your Oracle Upgrade

If you have a significant Oracle infrastructure, you need to take a measured view when it comes to upgrading it. You need to complete your upgrade within fixed timeframes aligned to minimize any possible disruption to your business. You need to ensure your applications remain at the highest level of support and that your business will not encounter any

performance hits after the upgrade. You want to ensure all obsolete features are removed, and that you take full advantage of the new benefits in Oracle Database 10g or Oracle Database 11g. In short, you want a smooth upgrade with no surprises.

Oracle Consulting can take the worry out of upgrading your complete data center. The Oracle Database Upgrade Service – Upgrade Factory offers a programmatic approach to upgrades, taking into account the complex dependencies between your applications, performing the upgrades for you and working with you and your team to ensure you are fully leveraging all the latest Oracle features. We will work closely with you and your team to plan and execute your upgrade in an accurate, efficient, and consistent manner, and will schedule the execution to minimize any potential impact to your business.

ORACLE CONSULTING DIFFERENTIATORS

- Oracle Expertise in delivering best practices using standardized methodology, process, tools, and resources
- Breadth of Services for Your Needs to integrate functional, technical, and change management services necessary for optimal user adoption
- Aligned with Your Goals with a cost-effective and comprehensive upgrade solution resulting in project success

Scope of Offering

The Oracle Database Upgrade Service – Upgrade Factory assesses each of your Oracle Databases individually, while understanding the wider context in which they sit. We will work with you to plan and schedule all Oracle upgrades in a consistent and controlled manner based on our experience gained on hundreds of Oracle upgrade projects. We can offer you individual care and attention and will get you through your upgrade programme quickly and efficiently.

Requirements

The Oracle Database Upgrade Service – Upgrade Factory is designed for organizations who are running the following releases of the Oracle Database:

- 7.3.4, 8.0.6, 8.1.7, 9.0.1, 9.2.0, 10.X

Key Deliverables

The key deliverable from this service is an upgraded Oracle Database infrastructure. With a pre-defined set of proven business practices, the Oracle Database Upgrade Service – Upgrade Factory dramatically reduce the complexity, time and cost associated with moving to the latest Oracle technology platforms – with the security of knowing that your systems have been correctly upgraded. In a market where speed and efficiency are the ultimate competitive advantage, this service is one of the best investments an organization can make.

Getting Started

Leverage Oracle's methods, tools and extensive experience with customer implementations across diverse industries and geographies. Tight integration across Consulting, Development, Support, Education and Global Delivery puts the entire Oracle team behind your success.
