

ORACLE SOA SERVICE AND SOFTWARE DEVELOPMENT SERVICE

Oracle Expert Services

AT A GLANCE

- Discover the best architecture for implementing SOA for your organization to maximize SOA benefits
- Learn how to take advantage of SOA from Oracle experts
- Receive recommendations and plan for moving to a flexible architecture
- Receive recommendations and a plan for implementing a scalable and reliable architecture
- Comprehensive knowledge transfer of Oracle best practices on SOA direct to your team

Do you worry that your Service Oriented Architecture (SOA) platform may not be taking advantage of the best architectural approaches offered for SOA? Are you uncertain about the best way to develop services? How do you ensure your business processes adopt this type of architecture in an efficient way and at the same time adhere to your business model so as to enjoy the benefits of SOA? Our SOA Service and Software Development Service was designed to guide you in the selection, design and implementation of the necessary architecture and application services to satisfy your business requirements.

Overview

Businesses today must respond faster to competitive and customer challenges. Increasingly, they are looking to IT to be a differentiator, providing flexibility and speed for addressing complex business needs. Forced to deliver more services in less time, IT managers are looking at their technology foundations to provide additional agility as well as reduced costs. Today, industry analysts and the IT press are pushing SOA as the latest “silver bullet.” While many businesses have already successfully adopted SOA, many are still trying to understand how SOA can effectively help their businesses. Some companies look to adopt practical approaches and initial architecture based on SOA pilot projects already selected. Other organizations ask for assistance in identifying projects.

The Oracle SOA Service and Software Development service provides the support of a team of Oracle experts. They can guide you in the selection, design and implementations of the necessary architecture and application services needed to help you realize the flexibility and agility of your SOA platform.

Scope of the Offering

The Oracle SOA Service and Software Development service validates and reviews many aspects of your SOA implementation, including:

- Existing IT Architecture
- Key Business and/or IT Business Flows
- Technical and Functional Requirements
- Project Specifications
- Architectural Implementation Plans for SOA
- Existing Governance Model Plans and Future Plans

ORACLE CONSULTING DIFFERENTIATORS

- Oracle Expertise in delivering best practices using standardized methodology, process, tools, and resources
- Breadth of Services for Your Needs to integrate functional, technical, and change management services necessary for optimal user adoption
- Aligned with Your Goals with a cost-effective and comprehensive upgrade solution resulting in project success

Based on the information collected, our Oracle Experts will work with your team to create identification and classification processes and a plan to implement.

The main areas reviewed and analyzed by this service may include:

- Validation of SOA Architectural Blueprint
- Analysis of business/IT process and necessary fundamental patterns
- Service portfolio planning
- Implementation of management, monitoring and security policies for services
- Best Practices and Standards for implementing services
- Detailed design and implementation of services

Major Deliverables

- List of suitable service candidates
- Documentation on SOA management procedures
- Detailed implementation specifications and operating manual for SOA services

How We Are Different

The Oracle Consulting team is focused exclusively on Oracle Technologies, and we have the experts that others turn to for leading practices in Oracle software implementations. We know Oracle best and can provide your business with tightly integrated, comprehensive, superior services throughout your ownership experience.

Getting Started

Leverage Oracle's methods, tools, and extensive experience with customer implementations across diverse industries and geographies. Tight integration across Consulting, Development, Support, Education, and Global Delivery puts the entire Oracle team behind your success.
