América Leasing S.A.

With 10 years of experience and customers in every sector of the economy, Peruvian-based América Leasing S.A. specializes in capital equipment leasing. It also provides customers with tax, legal, and financial consulting services.

Challenges

- Ensure a reliable, affordable, and secure data infrastructure that enables América Leasing to serve its growing client base
- Fulfill contingency plan requirements established by the Superintendencia de Banca y Seguros–SBS (Insurance and Bank Superintendence), an entity that regulates financial services organizations in Peru
- Ensure the reliability of América Leasing’s data infrastructure
- Improve performance and response time of the company’s IT systems

Solution

- Implemented Oracle Database Standard Edition One 10g, specifically designed for small to mid-sized businesses, to guarantee the data support needed to ensure business continuity
- Improved transactional processes, fueling higher productivity and enabling fact-based decision making
- Reduced process response time from 30 minutes to 12 seconds during periods of heavy system use
- Achieved high availability of systems through geographically distributed data centers, allowing América Leasing to comply with business continuity and security regulations
- Migrated the data hosted in a Microsoft SQL Server to Oracle Database Standard Edition One 10g
- Achieved rapid implementation of the new system--working with BDO Consulting, an Oracle Advantage Certified Partner
