- Service tailored to your healthcare business needs
- Get the most value at the lowest cost
- Lower your implementation risk, and accelerate ROI
- Maximizing functionality and Minimizing customizations
- Reducing timelines and costs
- Customers gain greater access to all of Oracle's resources

## Offering Details

The longer it takes to implement a solution, the longer one has to wait to reap the economic benefits. This is why Oracle Consulting created the Rapid Start implementation approach. These standardized, streamlined, and highly focused implementations deliver the business processes you need, quickly and efficiently. This accelerated approach helps you get your PeopleSoft Enterprise application solutions into production sooner.

The Rapid Start implementation approach can deliver a predictable implementation in as little as 12 weeks by leveraging: accelerated implementation methodologies, clearly defined scope and objectives, proven best practices and integrated tools.

The first step in a Rapid Start implementation is to secure a solid foundation for the project through the review of the best business practices available in the software. We then quickly identify and capture the required configuration parameters for your business processes through the use of our standardized tools and templates. Our tools and templates are designed to provide the implementation team with clear direction for a successful project by mitigating risk and minimizing unexpected results.

**ORACLE CONSULTING  
DIFFERENTIATORS**

- Oracle Expertise in delivering best practices using standardized methodology, process, tools, and resources
- Breadth of Services for Your Needs to integrate functional, technical, and change management services necessary for optimal user adoption
- Aligned with Your Goals. a cost-effective and comprehensive healthcare implementation solution resulting in project success

Knowledge transfer is a priority during the Rapid Start, and we will work with your team through all phases of the implementation process. Together with your staff, we build your system by integrating your business-specific configuration parameters into the software.

Once the system is configured, we work with your implementation team to test and validate the configuration of the Oracle business processes as well as ensure they work in your production environment.

**Benefits**

The Rapid Start implementation approach embodies mutual objectives of accelerating your implementation, mitigating project risk, and reducing project surprises. We can provide the solution you desire— and faster!

**Lower Cost** – Fixed-scope increases predictability and lowers engagement risk
