

# CUSTOMER RELATIONSHIP MANAGEMENT - INFORMATION SOLUTIONS

*Software  
Documentation at  
your fingertips*

*Training when and  
where you need it*

*Increase employee job  
satisfaction and  
productivity*

*Oracle PeopleSoft Enterprise offers many information solutions to help you and your employees succeed. Take advantage of our PeopleBooks, Documentation Updates, Instructor-Led Training, Online Classes, User Productivity Kits (UPK), Self-Study CD's, Certification Programs, and other helpful information.*

PeopleSoft Enterprise Information Development and the entire PeopleSoft Enterprise organization are dedicated to providing quality information solutions to help you and your employees succeed. To help manage your business and maximize the value of your software investment, just follow the links below.

## **PeopleSoft Enterprise Information Portal**

The PeopleSoft Enterprise Information Portal provides you with a single entry point to locate the documentation, training, and other useful information you need to help with your implementation process and improve your daily experience with our products. Customers searching for this information should make this their first online destination.

<http://www.oracle.com/applications/peoplesoft-information-portal.html>

## **PeopleBooks**

Our PeopleSoft Hosted PeopleBooks website allows you to access an HTML installation of our PeopleBook suite, including Search capabilities. This hosted solution also allows you to access PeopleBooks using the help link in your applications without having to install PeopleBooks on your own server. To enable context sensitive help, follow the simple instructions on the website's opening page.

**Red Papers**

Red papers are available on My Oracle Support. From Knowledge Home you can navigate to PeopleSoft Enterprise > Customer Relationship Management and then to All of Customer Relationship Management or to specific products. Once the results display, you can further filter the results by searching on “red paper” in the Knowledge Base search box.

### **Cumulative Feature Overview Tool**

The new Cumulative Feature Overview Tool provides concise descriptions of new and enhanced solutions and functionality that have become available between starting and target releases. Customers simply identify the products they own, their existing release, and their target implementation release. With a single click the tool quickly produces a customized set of high-level, concise descriptions of features developed between their starting and target releases.
