BART Ticketing from the Millbrae Station For San Mateo/SFO Hotels

Following are two options for purchasing BART tickets.

Sunday Attendance

If you're planning to attend the conference beginning on Sunday you will need to purchase your ticket from a Ticket Vending Machine (TVM) at the Millbrae station. We recommend purchasing a multi-trip ticket that you can use for your entire stay. The suggested denominations are:

Two days (2 round trips) - \$17.00

Three days (3 round trips) - \$25.50

Four days (4 round trips) - \$33.75

Five days (5 round trips) - \$42.00

If you plan to use cash the machines can only provide a maximum of \$4.95 in change. Change machines are located next to the TVM.

Monday Attendance

BART personnel will be available to sell tickets on Monday morning from 6:30 – 10:00. Tickets in the above denominations can be purchased for cash only. This service is being provided to avoid long lines at the TVM's during morning commute hours. Purchasing your tickets at the Ticket Table will expedite the process, so you can board the trains faster. Please have cash available for this transaction.

Thanks for taking BART and enjoy the conference.

Instructions on purchasing your BART tickets from the TVM:

1. Slide your credit/debit card or cash in the machine.
2. Use the add or subtract buttons to enter the desired ticket value.
3. The correct ticket value is displayed.
4. Press the print ticket button.
5. Remove your ticket from the front of the TVM.
6. Your receipt will be at the bottom of the machine.
7. Go to the fare gate and place the ticket in the slot.
8. When it appears at the top remove it and the gate will open.
9. Follow the same procedure when you exit at your destination.
