

# IMPLEMENTATION KIT FOR PEOPLESOFT ENTERPRISE 8 HUMAN RESOURCES MANAGEMENT

PeopleSoft Enterprise 8 validated software integration. Enables Web-based document management from within PeopleSoft Enterprise applications. Incorporates document imaging and workflow.

*Bluebird Systems offers solutions that let you move from a paper intensive process to a streamlined electronic process—a “paperless” solution. The Implementation Kit for Oracle’s PeopleSoft Enterprise 8 Human Resources Management offers the sample code required for integration with the imaging and workflow components of ODOC. All the paper associated with an employee—such as hiring papers, insurance forms, payroll information, and so forth, can now be imaged to improve safety and access by approved users—even from multiple locations.*

## BlueBird Systems, an Open Text Company

Bluebird Systems is a leading developer of Web-centric object management and workflow solutions. ODOC, our suite of high performance software products, facilitates document imaging and the management of all such objects. With ODOC, Bluebird offers a solution to move from a document driven process to a streamlined, electronic process. This electronic workflow driver process offers improved customer service and eliminates lost or misfiled documents.

## Integration Overview

With the Implementation Kit users can maximize their use of current PeopleSoft Enterprise 8 Human Resources Management modules through document imaging and workflow capabilities.

This integration is accomplished by providing customers with an interface between the PeopleSoft Enterprise 8 Web-based interface and ODOC—a core backend and customizable toolkit.

Copies of employee resumes, proof-of-citizenship documents, and other employee-related documents, can be viewed as images by approved users through a standard browser. Once a document has been faxed/scanned into workflow for indexing, it can easily be retrieved and viewed. With the available security, authorized users can search, retrieve, print, fax, or e-mail the document image directly from the PeopleSoft Enterprise system. This eliminates the problems associated with lost or misfiled paper documents, as well as offering document control and security.

INTEGRATED WITH

PEOPLESOFT ENTERPRISE

Through the Oracle PartnerNetwork Applications Integration Initiative, partners with validated integrations are able to provide customers with standards based vanilla product integrations, tested and validated by Oracle. Customers benefit from improved risk management and smoother upgrade capability, leading to a lower total cost of ownership and greater overall satisfaction.

### **Availability**

The Implementation Kit for PeopleSoft Enterprise 8 Human Resources Management is available from Bluebird Systems, an Open Text Company.

### **Support**

Bluebird Systems, an Open Text Company, fully supports the Implementation Kit for PeopleSoft Enterprise 8 Human Resources Management. Call 800 767 6117 or email [support@bluebird.com](mailto:support@bluebird.com).

### **Validation Environment**
