Develop and deliver high-quality applications on-time through automated and repeatable testing

## Company Overview

Compuware Corporation (Nasdaq: CPWR) maximizes the value IT brings to the business by helping CIOs more effectively manage the business of IT. Compuware solutions accelerate the development, improve the quality and enhance the performance of critical business systems while enabling CIOs to align and govern the entire IT portfolio, increasing efficiency, cost control and employee productivity throughout the IT organization. Founded in 1973, Compuware serves the world's leading IT organizations, including more than 90 percent of Fortune 100 companies.

## Integration Overview

Compuware TestPartner 6.0's functional testing supports Oracle E-Business Suite 11i, so that customers can quickly and thoroughly verify application functionality to facilitate both initial deployment and periodic updates, even under tight time constraints.

## Integration Details

Compuware TestPartner 6.0:

- Offers a visual, storyboard-based interface that enables testers to collaborate with Oracle E-Business Suite 11i users to rapidly document, build and execute test cases without having to program.
- Documents critical business functionality within Oracle E-Business Suite 11i through an automated process. This provides a clear understanding between application users and quality teams about what is being tested relative to test cases and business requirements.
- Offers a high-level visual summary of Oracle E-Business Suite 11i test results, so managers gain insight into application quality as it relates to business requirements.
- Accelerates test maintenance efforts through a single-click update that helps users rapidly pinpoint changes, and dedicate more time to testing.
- Allows testers to drill deep and identify test requirement and application failures in Oracle E-Business Suite 11i more efficiently and cost-effectively. The side-by-side visual results identify the problem without re-executing the test, saving time and speeding resolution.
- Provides automated regression testing for Oracle E-Business Suite 11i to quickly confirm that patches, services packs and regular updates can be applied without

**INTEGRATED WITH**

**ORACLE**

**E-BUSINESS SUITE**

Through the Oracle PartnerNetwork Applications Integration Initiative, partners with validated integrations are able to provide customers with standards-based vanilla product integrations, tested and validated by Oracle. Customers benefit from improved risk management and smoother upgrade capability, leading to a lower total cost of ownership and greater overall satisfaction.
