

Application Licensing Table

This document provides an overview of Oracle's licensing prerequisites for the underlying database and other technologies when licensing Oracle E-Business Suite applications as it relates to the level of modifications that are performed to the application programs. Additional prerequisites may apply to specific application programs, please contact your Oracle Sales Representative for more information.

* Please note that there are two Applications Licensing Tables, applicable for orders up to and including Feb 28, 2007 and for orders after Feb 28, 2007.

Technology Prerequisites Rules

Oracle distinguishes between three levels of modifications to its Oracle's E-Business Suite Applications, which have increasing licensing requirements for the underlying database and other technologies. These modification levels are:

No Modifications: The customer is deploying the application without modifications. In this case, the customer receives a Restricted Use license for the Oracle Database Enterprise Edition, Oracle Internet Application Server Enterprise Edition, and a limited set of other products. This Restricted Use license may only be used to run with the licensed application(s); it cannot be used for any other purposes.

Modifications implemented as Java programs and/or modifications to Forms, Reports and/or Workbooks: These modifications include any creation or modification of reports, forms, and/or workbooks. In addition, modifications implemented as Java programs, which include Java that produces html interface or Java business logic fall under this category. In these two scenarios, the customer receives a Restricted Use license for the Oracle Database Enterprise Edition and a limited set of other products. This Restricted Use license may only be used to run with the licensed application(s); it cannot be used for any other purposes. Additionally, the customer is required to purchase licenses for a limited set of products, including Oracle Internet Application Server Enterprise Edition for the total number of end users** or processors for which the modifications are deployed.

Modifications to the database: Examples of these modifications include adding and/or modifying the tables, columns, stored procedures and triggers, which are the part of Oracle E-Business Suite application schema. In this situation, the customer is required to purchase licenses for the Oracle Database Enterprise Edition, as well as Oracle Internet application Server Enterprise Edition for the total number of end users** or processors for which the modifications are deployed. The customer receives a Restricted Use license of a limited set of products. Additionally, a limited set of other products is required to be licensed as defined in the following table.

* If the date of your order was prior to or on February 28, 2007, please use the following table:

Types of Modification to Oracle's E-Business Suite Applications	To be licensed in addition to the Oracle E-Business Suite Application(s)		
	Oracle Database Enterprise Edition	Oracle Internet Application Server Enterprise Edition	Oracle Development Tools & Technology
No Modifications	Not Required. Restricted Use license may only be used to run licensed Oracle E-Business Suite Applications.	Not Required. Restricted Use license may only be used to run licensed Oracle E-Business Suite Applications.	Not Required. Oracle Alert, Application Object Library, Report Manager, Oracle Applications Manager, EDI Gateway, XML Gateway. Restricted Use: iDS for installing and configuring discoverer workbooks and end user layer content. Additionally, iDS for warehouse metadata to support EDW delivered with Oracle Apps (Forms and Report Builders for diagnostics purposes only). Programmer for the underlying technology as invoked by the unmodified eBusiness Suite applications. Restricted Use for Oracle licensed applications users only: Customer Data Hub, Business Intelligence Publisher*** to publish information from Oracle Applications.
Modifications implemented as Java programs which include Java that produces html interface or Java business logic AND/OR Modifications to Forms, Reports, and/or Workbooks	Not Required. Restricted Use license may only be used to run licensed Oracle E-Business Suite Applications.	Licenses required: For total number of end users** or Processors for which the modifications are deployed.	Not Required: Oracle Alert, Application Object Library, Report Manager, Oracle Applications Manager, EDI Gateway, XML Gateway. Restricted Use for Oracle licensed applications users only: Customer Data Hub. Programmer for the underlying technology as invoked by the unmodified eBusiness Suite applications. Licenses required: iDS and/or Discoverer Desktop Edition for developers making modifications; JDeveloper for all developers who build Java programs which access application schema and who are not licensed for iDS; For client server workbooks, Discoverer Desktop Edition for total number of actual users*.

Modifications to the Database	License required: For total number of actual users* or Processors.	License required: For total number of end users** or Processors for which the modifications are deployed.	<p>Not required: Oracle Alert, Application Object Library, Report Manager, Oracle Applications Manager, EDI Gateway, XML Gateway.</p> <p>Restricted Use: Diagnostic Pack restricted to the instance of the database where the application is run (if there are other database instances not pertaining to the application and the customer wants to use Diagnostic Pack, the customer must buy a full use license of the Diagnostic Pack for the other database instances). Restricted Use for Oracle licensed Applications users only: Customer Data Hub.</p> <p>License required: iDS and Programmer for developers making modifications; JDeveloper for developers who use to build Java programs which access application schema and who are not licensed for iDS; For client server workbooks, Discoverer Desktop Edition for total number of actual users*.</p>
--------------------------------------	---	--	--

Notes:

Actual Users*: All users and/or devices accessing E-Business Suite applications running on Oracle Database must be licensed. Minimums must be met.

End Users**: All users and/or devices accessing modified E-Business Suite applications running on Oracle Database must be licensed. Minimums must be met.

Business Intelligence Publisher (BI Publisher)***: E-Business Suite Applications include a restricted use of BI Publisher to publish and/or view:

1. Shipped BI Publisher reports. Layout changes are allowed. AND
2. Shipped or newly created BI Publisher reports that are modified to access data from the existing Oracle Applications schema that has not been customized.

Full use of Business Intelligence Publisher is required if any shipped, modified or newly created Business Intelligence Publisher report:

1. Accesses data from a non-Oracle Applications data source, or
2. Accesses data from a new schema within the Oracle Applications that is not shipped by Oracle, or
3. Accesses data from a modified Oracle Applications schema (e.g. by adding columns to an existing table).

Oracle Demantra products are offered under the JD Edwards and Siebel licensing models. Regardless from which pricing & licensing model these products are procured, the aforementioned technology licensing policies apply.

For the following products:

- Oracle Siebel CRM On Demand Integration Pack for Oracle E-Business Suite,
- Oracle Siebel CRM Integration Pack for Oracle Order Management,
- Oracle Siebel Call Center Integration Pack for Oracle Adverse Event Reporting System,
- Oracle Siebel CRM Integration Pack for Trade Promotion Management
- Demantra Integration Pack for Siebel Consumer Goods
- Agile Product Lifecycle Management Integration Pack for Oracle E-Business Suite: Design to Release
- Oracle Communications, Billing and Revenue Management Integration Pack for Oracle E-Business Suite: Revenue Accounting

You will receive a restricted use license for Oracle Database Enterprise Edition, Oracle Internet Application Server Enterprise Edition, Oracle Internet Application Server Enterprise Edition option: SOA Suite for Oracle Middleware, and Oracle Applications Adapter, each of which may only be used to:

1. Configure, modify and extend delivered business objects, transformation maps, domain value maps and cross reference structures for the provided integration points between the common object definition and the participating application API/service interface referenced in a given process integration package (or an API/service interface derived at customer site from a standard API/service referenced in a given process integration package).
2. Configure error handling routines that are provided by Oracle for a given process integration pack.

Definition of "configuration": Modifying routing rules, xpath expressions, error handling flows and cross reference set up.

Definition of "modification": Adding or removing data attributes and required transformation mappings against the participating application API/service interface (or an API/service interface derived at customer site from a standard API/service referenced in a given process integration package).

You are required to purchase a full use license for the following programs: Oracle Database Enterprise Edition, Internet Application Server Enterprise Edition, Oracle Internet Application Server Enterprise Edition option: SOA Suite for Oracle Middleware, and Oracle Applications Adapter, if you are doing any of the following:

1. Creating new business objects
2. Connecting a process integration pack or a business object to a new application system.
3. Creating new transformations
4. Creating new Enterprise Service Bus routings.
5. Creating new Business Process Execution Language (BPEL) processes or sub processes.
6. Creating new domain value tables
7. Creating new cross reference tables

The following Master Data Management (MDM) programs or components of programs do not include a restricted use of the underlying Oracle Technology: Siebel Universal Customer Master B2B / B2C (a component of Oracle Customer Hub for B2B/B2C or Oracle Customer Hub Add-on B2B/B2C), Oracle Activity Hub B2B / B2C, Oracle Field Service Hub B2B / B2C, Oracle Marketing Hub B2B / B2C, Oracle Sales Hub B2B / B2C, Oracle Service Hub B2B / B2C, Siebel Customer Data Steward (a component of Oracle Customer Hub Data Steward), Oracle / Siebel Data Quality, Oracle / Siebel Data Quality Matching Server, Siebel Product Data Steward (a component of Oracle Product Hub Data Steward), Oracle Automotive Captive Finance Customer Hub, Oracle Case Hub, Oracle Life Sciences Customer Hub, Siebel Universal Product Master (a component of Oracle Product Hub or Oracle Product Hub Add-on).

* If the date of your order was after February 28, 2007 and you were not an existing Oracle E-Business Suite Applications customer as of that date, please use the following table:

Types of Modification to Oracle's E-Business Suite Applications	To be licensed in addition to the Oracle E-Business Suite Application(s)		
	Oracle Database Enterprise Edition	Oracle Internet Application Server Enterprise Edition	Oracle Development Tools & Technology
No Modifications	Not Required. Restricted Use license may only be used to run licensed Oracle E-Business Suite Applications.	Not Required. Restricted Use license may only be used to run licensed Oracle E-Business Suite Applications.	Not Required. Oracle Alert, Application Object Library, Report Manager, Oracle Applications Manager, EDI Gateway, XML Gateway. Restricted Use: iDS for installing and configuring discoverer workbooks and end user layer content. Additionally, iDS for warehouse metadata to support EDW delivered with Oracle Apps (Forms and Report Builders for diagnostics purposes only). Programmer for the underlying technology as invoked by the unmodified eBusiness Suite applications. Restricted Use for Oracle licensed applications users only: Business Intelligence Publisher*** to publish information from Oracle Applications.
Modifications implemented as Java programs which include Java that produces html interface or Java business logic AND/OR Modifications to Forms, Reports, and/or Workbooks	Not Required. Restricted Use license may only be used to run licensed Oracle E-Business Suite Applications.	Licenses required: For total number of end users** or Processors for which the modifications are deployed.	Not Required: Oracle Alert, Application Object Library, Report Manager, Oracle Applications Manager, EDI Gateway, XML Gateway. Restricted Use: Programmer for the underlying technology as invoked by the unmodified eBusiness Suite applications. Licenses required: iDS and/or Discoverer Desktop Edition for developers making modifications; JDeveloper for all developers who build Java programs which access application schema and who are not licensed for iDS; For client server workbooks, Discoverer Desktop Edition for total number of actual users*.

Modifications to the Database	License required: For total number of actual users* or Processors.	License required: For total number of end users** or Processors for which the modifications are deployed.	Not required: Oracle Alert, Application Object Library, Report Manager, Oracle Applications Manager, EDI Gateway, XML Gateway. License required: iDS and Programmer for developers making modifications; JDeveloper for developers who use to build Java programs which access application schema and who are not licensed for iDS; For client server workbooks, Discoverer Desktop Edition for total number of actual users*.
--------------------------------------	---	--	---

Notes:

Actual Users*: All users and/or devices accessing E-Business Suite applications running on Oracle Database must be licensed. Minimums must be met.

End Users**: All users and/or devices accessing modified E-Business Suite applications running on Oracle Database must be licensed. Minimums must be met.

Business Intelligence Publisher (BI Publisher)***: E-Business Suite Applications include a restricted use of BI Publisher to publish and/or view:

1. Shipped BI Publisher reports. Layout changes are allowed. AND
2. Shipped or newly created BI Publisher reports that are modified to access data from the existing Oracle Applications schema that has not been customized.

Full use of Business Intelligence Publisher is required if any shipped, modified or newly created Business Intelligence Publisher report:

1. Accesses data from a non-Oracle Applications data source, or
2. Accesses data from a new schema within the Oracle Applications that is not shipped by Oracle, or
3. Accesses data from a modified Oracle Applications schema (e.g. by adding columns to an existing table).

Oracle Demantra products are offered under the JD Edwards and Siebel licensing models. Regardless from which pricing & licensing model these products are procured, the aforementioned technology licensing policies apply.

For the following products:

- Oracle Siebel CRM On Demand Integration Pack for Oracle E-Business Suite,
- Oracle Siebel CRM Integration Pack for Oracle Order Management,
- Oracle Siebel Call Center Integration Pack for Oracle Adverse Event Reporting System,
- Oracle Siebel CRM Integration Pack for Trade Promotion Management
- Demantra Integration Pack for Siebel Consumer Goods
- Agile Product Lifecycle Management Integration Pack for Oracle E-Business Suite: Design to Release
- Oracle Communications, Billing and Revenue Management Integration Pack for Oracle E-Business Suite: Revenue Accounting

You will receive a restricted use license for Oracle Database Enterprise Edition, Oracle Internet Application Server Enterprise Edition, Oracle Internet Application Server Enterprise Edition option: SOA Suite for Oracle Middleware, and Oracle Applications Adapter, each of which may only be used to:

1. Configure, modify and extend delivered business objects, transformation maps, domain value maps and cross reference structures for the provided integration points between the common object definition and the participating application API/service interface referenced in a given process integration package (or an API/service interface derived at customer site from a standard API/service referenced in a given process integration package).
2. Configure error handling routines that are provided by Oracle for a given process integration pack.

Definition of "configuration": Modifying routing rules, xpath expressions, error handling flows and cross reference set up.

Definition of "modification": Adding or removing data attributes and required transformation mappings against the participating application API/service interface (or an API/service interface derived at customer site from a standard API/service referenced in a given process integration package).

You are required to purchase a full use license for the following programs: Oracle Database Enterprise Edition, Internet Application Server Enterprise Edition, Oracle Internet Application Server Enterprise Edition option: SOA Suite for Oracle Middleware, and Oracle Applications Adapter, if you are doing any of the following:

1. Creating new business objects
2. Connecting a process integration pack or a business object to a new application system.
3. Creating new transformations
4. Creating new Enterprise Service Bus routings.
5. Creating new Business Process Execution Language (BPEL) processes or sub processes.
6. Creating new domain value tables
7. Creating new cross reference tables

The following Master Data Management (MDM) programs or components of programs do not include a restricted use of the underlying Oracle Technology: Siebel Universal Customer Master B2B / B2C (a component of Oracle Customer Hub for B2B/B2C or Oracle Customer Hub Add-on B2B/B2C), Oracle Activity Hub B2B / B2C, Oracle Field Service Hub B2B / B2C, Oracle Marketing Hub B2B / B2C, Oracle Sales Hub B2B / B2C, Oracle Service Hub B2B / B2C, Siebel Customer Data Steward (a component of Oracle Customer Hub Data Steward), Oracle / Siebel Data Quality, Oracle / Siebel Data Quality Matching Server, Siebel Product Data Steward (a component of Oracle Product Hub Data Steward), Oracle Automotive Captive Finance Customer Hub, Oracle Case Hub, Oracle Life Sciences Customer Hub, Siebel Universal Product Master (a component of Oracle Product Hub or Oracle Product Hub Add-on).
