Oracle Database Security DEMOgrounds

WEST EXHIBITION HALL

Oracle Database Vault

- Restrict DBA access to application data
- Enforce separation of duties
- Protect applications, databases, and data with no change to existing application code

Oracle Audit Vault

- Consolidate and secure audit data from Oracle9i Database Release 2 to Oracle Database 11g
- Proactively detect/report on suspicious activity with alerts, built-in reports, and custom reports
- Get built-in security and scalability with Oracle Database Vault, Oracle Advanced Security and Partitioning

Oracle Transparent Data Encryption

- Encrypt credit card numbers for PCI compliance with no application changes
- Protect Social Security and credit card numbers on your disk and backup media
- Get built-in key management plus Hardware Security Module integration
