We're Back! Remote Airline Check-in Service for Oracle OpenWorld 2008

That's right! You can check in for your departing flight at the Moscone Center and bypass the airport lines! This unique service allows you to check your bags and receive your boarding pass at the Moscone Center, leaving you more time to visit the show floor or take in more of what San Francisco has to offer.

Participating Airlines (SFO domestic flights only):

AirTran, Alaska, American, Continental, Delta, JetBlue, Northwest, United, and US Airways (US Airways is Web check-in only)

Rates: \$10 per passenger service charge. Normal airline baggage constraints apply: 1 to 2 bags, 50 pounds per bag weight limit. Please ask attendant for airline baggage charge exceptions.

Preenrollment: To expedite the check-in process, we strongly encourage you to preenroll for our service. Simply log in to our new preenrollment Web site and enter your event code and password. When you are ready to check your luggage on your day of departure, simply proceed to our bag-check facility at Moscone Center (adjacent to the Moscone West coat and bag check) on either September 24 or 25, 2008. Please have your ID available at check-in.

Alternatively, you can print out our preenrollment form and drop it off at our Moscone coat and bag check location prior to checking your luggage.

Safety and Security:

- We are the first TSA-approved remote skycap service.
- All agents are highly trained and credentialed to issue boarding passes and print bag tags on demand.
- Proprietary sophisticated technology is used to ensure accurate, safe, and secure multi-airline baggage check-in and transport to the airport.

You may check in for your flight anytime the day of departure. Luggage must be checked a minimum of three hours before scheduled flight departure.

Location of Service: Service is located at Moscone West, adjacent to the coat and bag check.

Questions or comments on the service may be directed to moscone@airportbags.com. Please make sure to refer to your event at the San Francisco Moscone Center.
