Oracle Unified Method 5 Essentials (1Z0-568)
Exam Study Guide

Kim Miller
WWA&C Partner Enablement
Objective & Audience

Objective
To help you prepare to take the Oracle Unified Method 5 Essentials (1Z0-568) exam by providing pointers to study resources.

Targeted Audience

• Project Team Members (intermediate level)
• 2-3 years of implementation experience (using any methodology)
• Participation in 1-3 end to end implementations (using any methodology)
• Up-to-date training and field experience are strongly recommended
Exam Topics & Objectives

Exam Topics
The Oracle Unified Method 5 Essentials exam consists of six topics:

1. OUM Overview & Awareness
2. Focus Area Specific Overview: Manage
3. Focus Area Specific Overview: Envision
4. Focus Area Specific Overview: Implement
5. Use Case Overview
6. Gathering Requirements

Exam Objectives
The exam objectives are defined by learner or practitioner level of knowledge:

• **Learner-level:** questions require the candidate to recall information to determine the correct answer.

  Example: Define the term network.

• **Practitioner-level:** questions require the candidate to derive the correct answer from the application of their knowledge, which can only be attained by extensive experience with the product.

  Example: The client requests xyz functionality, would you recommend a, b or c?
Training Options

For each exam topic there a number of training options available through Oracle. The training options are divided into three categories:

• **Boot Camps**
  The Boot Camps are designed as a "jump start" training to enhance your skills by providing role-based training on industry-leading Oracle solutions and services. The boot camps are built as concise, intensive and real-time training to give partners a competitive advantage as they prepare to build powerful solutions for their customers. Many boot camps are available in a classroom environment or in a live virtual class format.

• **Instructor-Led Training (delivered through Oracle University)**
  Partners can take any publicly-scheduled Oracle University courses at a discount. Most courses offer the benefit of hands on experience to help gain a working knowledge of the product.

• **Online Training**
  Oracle Partners are entitled to free access to the Oracle Knowledge Center (OUKC), which includes a vast library of recorded product courses. New courses are regularly added to the library, providing partners with the latest information and training to master new products or to increase proficiency.
Objectives

<table>
<thead>
<tr>
<th>Objectives</th>
<th>Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>Describe OUM Benefits</td>
<td>Learner</td>
</tr>
<tr>
<td>Describe OUM Goals</td>
<td>Learner</td>
</tr>
<tr>
<td>Define OUM Structure &amp; Core Components</td>
<td>Learner</td>
</tr>
</tbody>
</table>

Training Options

- Online Training
  - Level 1 – Overview & Awareness

Sample Question

- Which are OUM objectives? (select 2)
  - A. Ensure customers receive adequate product documentation

  - **E. Use Cases include additional details, such as, pre- and post-conditions**
# Topic 6: Gathering Requirements

| Objectives                                                      | Level    |
|                                                               |          |
| Define Implement Projects from Envision to Implement           | Learner  |
| Explain the OUM Implement Core Workflow                        | Learner  |
| Describe Iteration Planning in OUM                             | Practitioner |
| Define System Scope Using OUM                                  | Practitioner |
| Use Business Process Modeling with OUM                         | Practitioner |
| Apply the Domain Model in OUM                                  | Practitioner |
| Develop and Apply the Use Case Model with OUM                  | Practitioner |
| Evaluate and Prioritize Use Cases                              | Practitioner |
| Write Scenarios for Use Cases                                  | Practitioner |
| Diagram Use Cases                                              | Practitioner |
| Apply Use Case Advanced Diagramming                            | Practitioner |
| Develop OUM Requirement Specifications                         | Practitioner |
| Describe Analysis & Design in OUM                              | Learner  |

## Training Options

- Instructor Led Training
  - Level 3 – Gathering Requirements

## Sample Question

- Oracle _____ is a service that examines customers’ critical business challenges to help identify feasible, credible, affordable solutions that will in turn help to achieve their strategic goals.
  
  A. Envision  
  B. Manage  
  C. Implement  
  D. Operate  
  E. Insight  
  F. SOA
Exam Registration

• How to register for the exam?
  You can register for all Oracle certification exams with Pearson VUE. Before a registration can be submitted, a Pearson VUE profile must be created using your Company ID. Your Company ID can be obtained by contacting your local Oracle Partner Business Center or by signing in to your OPN account. Your Company ID is located in the section on the right under “Company information”.

  Please follow these instructions in order to properly set-up your Pearson VUE account for the first time.

• Have you completed an Oracle Certification Exam in the past?
  Due to systems enhancements, each partner who has completed an Oracle Certification Exam will need to update their Pearson VUE profile in order to receive credit and for those records to appear in the OPN Competency Center.

• How to get full recognition as Certified Implementation Specialist?
  To get full recognition as a Certified Implementation Specialist you need to:
  A. Update your Pearson VUE profile with your Company ID
  B. Activate your Certview Account

  Please follow these instructions and your records will be properly recorded.

For Oracle employees and authorized partners only. Do not distribute to third parties.
