

## Intergraph integrates PP&M Suite with E Business Suites using SOA

INTERGRAPH  
Huntsville, AL  
www.intergraph.com

### INDUSTRY:

PP&M: Chemical, Consumer Goods, Metals & Mining, Nuclear & Power Generation, Offshore, Oil & Gas, Pharmaceutical, Shipbuilding  
SG&I: Defense & Intelligence, Public Safety, Government, Transportation, Photogrammetry, Utilities and Communications

### ANNUAL REVENUE:

\$735 M

### EMPLOYEES:

3751

### ORACLE PRODUCTS AND

#### SERVICES:

Oracle Database  
Oracle Spatial Extension  
Oracle BPEL Process Manager

### KEY BENEFITS:

- Key performance improvement
- Oracle Spatial Annotation Text
- Oracle Spatial GeoRaster

"The entire Intergraph organization is honored to be included in the esteemed InformationWeek 500. We at Intergraph have a long and proud history of technical innovation and continue to set the standard in providing spatial information management software to our clients. We are proud of this achievement and look forward to continuing to be at the forefront of innovative technology." – R. Halsey Wise, President and CEO

"Through its innovations, Intergraph intends to lower IT and business costs, improve customer service, and get better business intelligence to more employees, more quickly." – Bill Johnson, VP Global IT

### Geospatially Powered Solutions

Intergraph Security, Government & Infrastructure (SG&I) is a leading, global provider of geospatially-powered solutions to the defense and intelligence, public safety, government, transportation, photogrammetry, utilities, and communications industries. Our customers rely on Intergraph solutions to organize vast amounts of complex data into understandable visual representations. Through our software, Intergraph customers make better and faster operational decisions vital to the safety and well-being of millions of people around the world each and every day.

Intergraph SG&I has served as a leading, global provider of geospatially powered solutions to the Security, Government & Infrastructure industries for nearly 40 years. Customers in more than 100 countries rely on our deep domain expertise and industry-specific solutions to manage critical assets, prevent and respond to incidents, and support mobile resources. Our solutions enable defense and intelligence, public safety, government, transportation, photogrammetry, utilities, and communications organizations to organize vast amounts of complex data into understandable visual representations, enabling them to make better and faster operational decisions vital to the safety and well-being of millions of people around the world each and every day.

## Enterprise Engineering Software

Intergraph Process, Power & Marine (PP&M) is the world's leading provider of enterprise engineering software for the design, construction and operation of plants, ships and offshore facilities. Our customers rely on Intergraph software to create, manage, and use critical engineering data to increase productivity and provide for safe and clean operations. As the industry's market leader, we provide the future of engineering - today.

Intergraph PP&M has been a technology innovator in the process, power, and marine industries for more than 20 years. We are the world's leading provider of enterprise engineering software for the design, construction and operation of plants, ships, and offshore facilities.

Engineering, procurement & construction firms and owner/operators in more than 100 countries around the world rely on our software to increase productivity and provide for safe and clean operations. As the industry's market leader, Intergraph's commitment to customer success is recognized around the world. Through our superior software, we provide the future of engineering - today.

## Flexible Integration

With the Process Power & Marine Suite of Apps integrated with Oracle Enterprise Asset Management of e Business suite, customers gain greater flexibility, as well as a truly comprehensive Plant design and automation solution. Oracle Fusion Middleware integrates these applications together by leveraging BPEL PM for orchestration and web services management. In addition, Oracle Fusion Middleware provides security, reliability, and high availability through its unbreakable, Services Oriented Architecture (SOA). The results are a simple, maintainable, and robust interface

## Why Oracle?

Intergraph enterprise customers need integrated PP &M solution with Oracle e Business Suites business solutions. As an ISV, Intergraph recognizes the need to provide their customers with standards-based, integrated solutions that are easy to manage and maintain. Intergraph has chosen Oracle Fusion Middleware to provide a reliable and flexible framework to create and manage a secure, service-oriented solution for their customers.
