Oracle Business Accelerator for E-Business Suite

Summary

The Oracle Business Accelerators for E-Business Suite provide a rapid implementation methodology for new installs via a powerful click and answer UI that maintains 100% Oracle E-Business Suite, Oracle Transportation Management and Oracle BPEL Process Manager for supportability and expandability. It is useful for new implementations, CRP situations, prototypes and any project that requires a fast starting place based on relevant Industry specific business transactions and functionality.

Oracle Business Accelerators are 100% Oracle. Customers can add, modify and expand the entire footprint as their business scales yet achieve very fast results by selecting the Industry specific business transactions they need from the Accelerator catalog.

Industry-specific versions are available for over 20 industries.

Oracle Business Accelerators are only available via certified approved partners.

General Business and Logistics - Business Accelerator Overview

- A proven business software solution for the SMB sectors
