

ORACLE BUSINESS ACCELERATOR FOR HIGH TECHNOLOGY – ELECTRONICS CONTRACT MANUFACTURING

Availability: United States

RELEASE 12

KEY FEATURES

QUICK FACTS

- 34 business flows
- 31 Oracle E-Business Suite products

NEW IN RELEASE 12

- Improved legal entity support
- Expense report audit
- Refund in Receivables
- Flexible approval rules
- Buyers workbench
- Skills & availability-based resourcing throughout the organization

ACCELERATOR ASSETS

Leading Practice

- Business Flows
- Functionality Guide
- Industry Footprint

Education & User Acceptance

- Videos
- Flow Scripts
- Process Models
- Business Case Presentation

Project Team

- How-to Guides
- Online Configuration Tool

The Complete Solution for Electronics Contract Manufacturers of Any Size

Oracle Business Accelerators deliver world-class functionality to answer the challenges facing today's electronics contract manufacturers.

Manufacturers must increase supply chain responsiveness in the competitive marketplace, and accelerate new product ramp. Business applications must be scalable to enable growth with minimized initial implementation outlay, protecting your investment over time.

Sample Key Business Processes Enabled

Consignment to Consumption

- Sell-side Vendor Managed Inventory (VMI)
- Stock and manage consigned material at customer sites based on mutually agreed stock maintenance levels
- Automatic generation of accounts receivable invoices based on actual consumption of consigned inventory at customer locations

Kanban Setup to Plan

- Enable lean, agile supply networks
- Utilize flow manufacturing to streamline the process for setting to managing a Kanban plan
- Conduct Kanban what-if analysis, adjust Kanban plan based on run time data

Schedule to Build

- Issue project-related work orders for manufacturing and issue material to work orders
- Execute and record operations activity, inspect goods
- Return components to stock and close work in process transactions
