Oracle Berkeley DB Java Edition Version 7.0 – New Feature

- **Time-To-Live** – efficient aging out of “expired” data – This is a common IoT requirement.

Berkeley DB JE continues to enable the most powerful embedded database solutions

- Pure Java library
- Handle TBs of data with a small, lightweight, embedded library
- Flexible, transactional data management engine
- Runs on a variety of operating systems and platforms.
- Over 50 open source software projects embed BDB -- check them out on Wikipedia
- Various options for APIs
- Industrial quality and battle tested

Supporting Assets and Resources:

Collateral and sales assets continue to be updated.
