This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, duplication, disclosure, modification, and adaptation shall be subject to the restrictions and license terms set forth in the applicable Government contract, and, to the extent applicable by the terms of the Government contract, the additional rights set forth in FAR 52.227-19, Commercial Computer Software License (December 2007). Oracle America, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information on content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle

## Preface

This document, which is part of the Program Documentation under the terms of your Oracle licensing agreement, is intended to help you understand the features, functionality, and options available for Oracle Programs. If you have a question about your licensing needs, please contact your Oracle sales representative, contact the License Management Services representative at <http://www.oracle.com/us/corporate/license-management-services/index.html>, or refer to the resources listed in "Related Documents" below.

Oracle TimesTen In-Memory Database (TimesTen) is available under different licensing options, each suitable for different development and deployment scenarios. Each of the licensing options offers capabilities for specific application requirements. This document provides information on TimesTen product licensing.

## Audience

This document is intended for all purchasers of Oracle TimesTen In-Memory Database product licenses.

## Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

### Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

## Related Documents

# Oracle TimesTen In-Memory Database Licensing Information

Oracle TimesTen In-Memory Database is available in four different licensing options:

- Oracle TimesTen In-Memory Database
- Oracle In-Memory Database Cache
- In-Memory Database Cache for Oracle Applications
- Oracle TimesTen In-Memory Database for Exalytics

**Oracle TimesTen In-Memory Database** The Oracle TimesTen In-Memory Database (TimesTen) license provides the core functionalities, all of which are also included in the other three licensing options listed above. TimesTen license users may use all features described in the TimesTen documentation set including TimesTen Replication, but do not include the following functionalities:

- Cache Grid and Cache Group related features available for the In-Memory Database Cache product
- Features specifically licensed under the TimesTen In-Memory Database for Exalytics product

**Oracle In-Memory Database Cache** The Oracle In-Memory Database Cache (IMDB Cache) license includes all features available under the TimesTen license, and also the ability to cache tables from the Oracle Database. The IMDB Cache license includes features related to Cache Grid and Cache Groups. Additionally, IMDB Cache is an Oracle Database product option, and requires an Oracle Database Enterprise Edition license for the source database used by the TimesTen cache tables.

**In-Memory Database Cache for Oracle Applications** The In-Memory Database Cache for Oracle Applications license provides the same set of functionality as that offered by Oracle In-Memory Database Cache. This license is available for use only with the Oracle Billing and Revenue Management (BRM) server product.

**TimesTen In-Memory Database for Exalytics** The TimesTen In-Memory Database for Exalytics license includes all features available under the Oracle TimesTen In-Memory Database license and the Oracle In-Memory Database Cache license. In addition, the following features are available for use with the Oracle Exalytics In-Memory Machine:

- In-Memory Columnar Compression
- OLAP Grouping Operators: Cube, Grouping Set, Rollup
