

## OBIEE, ODI: Oracle PLM Business Intelligence

Rajesh Bhat, Director, Product Management, Oracle

Oracle PLM Business Intelligence offers integrated Business Intelligence that provides Timely Analytics on Product Quality, Risk and Change Performance.

It provides:

- Daily insight to prioritize what's most important and delivers the data in time to influence the business outcome
- Enables fact based decision-making to prioritize product issues by customer, by severity
- Cycle time analysis to remove bottlenecks and ensure corrective action
- User Insight to Streamline, Prioritize & Close-loop to Action
- Interactive dashboards & guided navigation to faster, higher quality decision making
- Ability to Drill down to root cause, their key contributors and impact analysis
- Integration to corrective action in PLM system (CAPA, Audit, ECO, MCO, etc.)
- Ability to Empower Everyone in Organization
- Standard Best Practices & KPI metrics to Proactively Manage Risk Mitigation
- Benchmark and comparative analysis to drive continuous business process improvement of TTM, Cost and Quality performance of product programs

PLM BI is built on industry leading Oracle Fusion Middleware components: Oracle Data Integrator (ODI) and Oracle Business Intelligence Enterprise Edition (OBIEE)

Oracle Data Integrator Enterprise Edition delivers unique next-generation, Extract Load and Transform (E-LT) technology that improves performance, reduces data integration costs, even across heterogeneous systems. Unlike conventional ETL tools, Oracle Data Integrator EE offers the productivity of a declarative design approach, as well as the benefits of an active integration platform for seamless batch and real-time integration. In addition, hot-pluggable Knowledge Modules provide modularity, flexibility, and extensibility.

Oracle Business Intelligence Suite Enterprise Edition Plus (Oracle BI EE Plus) is a comprehensive suite of enterprise BI products that delivers a full range of analysis and reporting capabilities. Featuring a unified, highly scalable, modern architecture, Oracle BI EE Plus provides intelligence and analytics from data spanning enterprise sources and applications—empowering the largest communities with complete and relevant insight.
