

## Oracle BPEL Process Manager 10.1.2 Patches FAQ

### Q1. What are the Patches currently available for BPEL Process Manager?

Oracle BPEL Process Manager 10.1.2.0.0 has the following patches released:

No.	Reference Number	Release Date	Description
1	4343748	18-May-2005	Mandatory patch for the Oracle AS 10.1.2.0.0 Middle Tier in which Oracle BPEL Process Manager will be running.
2	4369818	18-May-2005	Same patch as above but applicable for Oracle BPEL Process Manager (Developer's Option)
3	4406640 (Patch-01)	12-July-2005	Patch-01. Bundled patch containing multiple fixes specific to Oracle BPEL Process Manager. See <a href="#">Release Notes</a> for details.
4	4496111 (Patch-02)	29-Sep-2005	Patch-02. Bundled patch containing multiple fixes. See <a href="#">Release Notes</a> for details.
5	4696706 (Patch-03)	27-Oct-2005	Patch-03. Patch required for JDeveloper to address a compile error that might occur in certain environments.

### Q2. Which patches are required for my environment?

No. Not all patches are required for every environment. See matrix for details.

No.	Reference Number	Developer's Version	Oracle AS 10.1.2.0.0 Middle Tier	Prereq Patches?
1	4343748	No	Yes	None
2	4369818	Yes	No	None
3	4406640 (Patch-01)	Yes	Yes	None
4	4496111 (Patch-02)	Yes	Yes	4406640
5	4696706	Yes	No	None

### Q3. Are these patches cumulative?

No. Each patch has to be applied individually for the specific environment that you have. See table in Q2 for details of the patches.

### Q4. Is there an order in which I must install these patches?

Unless the patch has a pre-requisite patch as indicated in the matrix in Q2 there is no specific order needed to install these patches. However wherever there is a prerequisite the patch installer will ensure that the pre-requisite patch has been installed. Oracle recommends that you install patches in the order they were released.

### Q5. Are there special patches for different OS Platforms?

No, All these patches are generic patches – which means they can be applied to all supported platforms (Windows, Solaris and Linux).

### Q6. Where can I download these patches?

These patches can be downloaded either from [Metalink](#) or from the [BPEL OTN Site](#). You will need a username and password to download from Metalink. On the BPEL OTN site we have provided one single zip file that contains all patches to date. They are available as individual patches on Metalink.
