

Oracle Application Server 10g Release 2 (10.1.2.0.n) Certification for Oct 25, 2005

[Oracle COREid Access and Identity](#) 7.0.4

[Oracle COREid Federation](#) 2.5

[Oracle Web Services Manager](#) 4.0.2

[Oracle Web Services Manager](#) 4.0.3

COREid Access and Identity (7.0.4) Certification

Hardware Platform Details			Operating System	COREid Servers	Oracle and 3rd Party Integrations	Customer Directory Service	Web Server support for WebGate	Web Server for WebPass + Access Manager	Access SDK support	Browser
Vendor	Processor	32 or 64 bit								
Sun	Sparc	64 bit. Exceptions/Notes

#	Area	Description
1	Database Drivers	For Oracle databases, the thin jdbc drivers are supported; certified for 9.2 database
2	JDK	Tomcat servers do not include JDK, but require Sun JDK or JRE 1.4.2
3	JDK	WebSphere servers include IBM JDK, but we require Sun JDK 1.4.2 for product installation
4	Client Agents	Client agents are supported under Tomcat, Tibco, and .NET environments. Server agents supported on all listed environments.

Exceptions/Notes

#	Area	Description
1	Database Drivers	For Oracle databases, the thin jdbc drivers are supported; certified for Oracle Database 10g
2	JDK	Tomcat servers do not include JDK, but require Sun JDK or JRE 1.4.2
3	JDK	WebSphere servers include IBM JDK, but we require Sun JDK 1.4.2 for product installation
4	Client Agents	Client agents are supported under Tomcat, Tibco, and .NET environments. Server agents supported on all listed environments.
