Captovation incorporated

Oracle Buys Document Capture Leader Captovation
Extends Oracle's Industry-leading Enterprise Content Management Solution

February 11, 2008

The following is intended to outline our general product direction. It is intended for information purposes only, and may not be incorporated into any contract. It is not a commitment to deliver any material, code, or functionality and should not be relied upon in making a purchasing decision. The development, release and timing of any features or functionality described for Oracle's products remains at the sole discretion of Oracle.
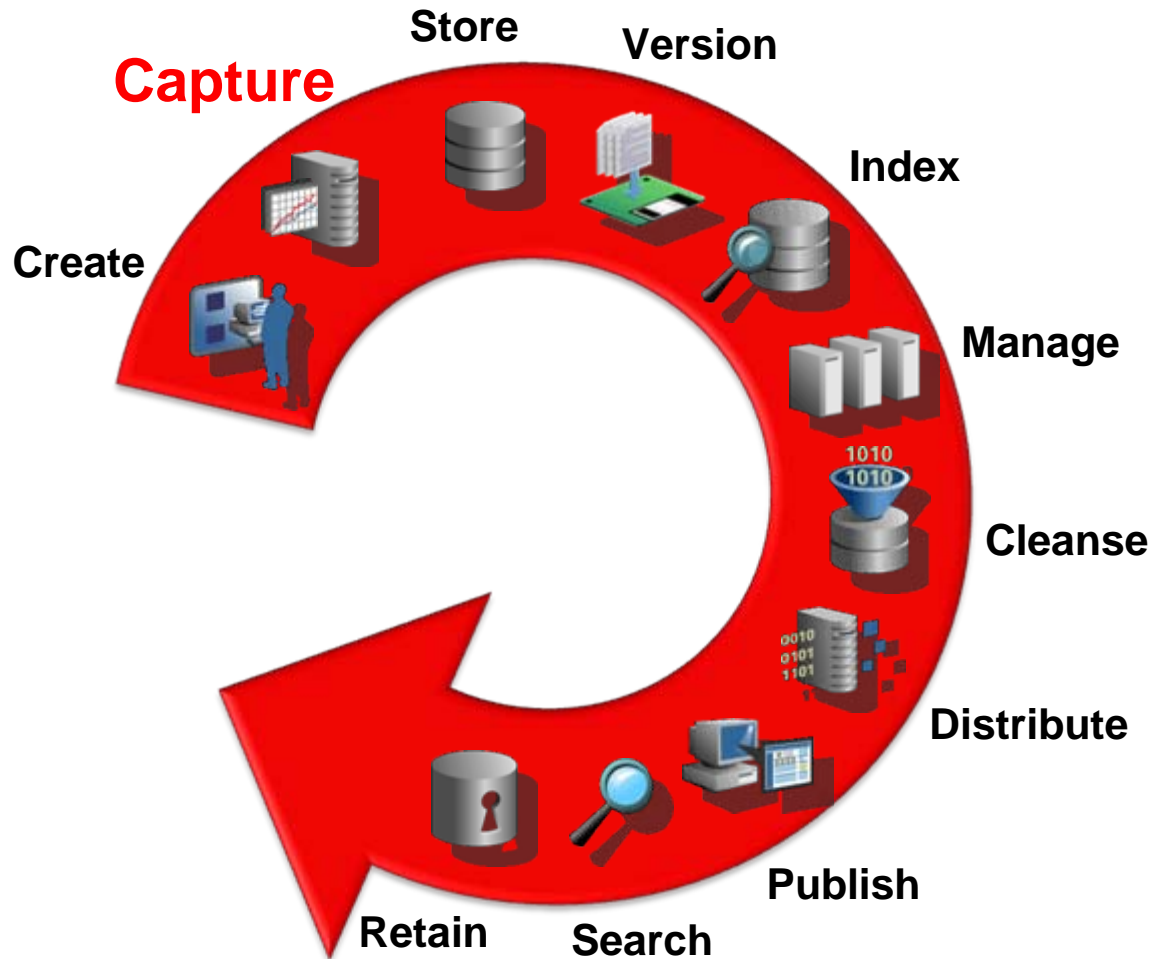

What We Are Announcing

- **Oracle to acquire Captovation**
  - Expected to extend Oracle's industry-leading Enterprise Content Management (ECM) offerings with document capture solution
  - Transaction closed February 11, 2008
- **Captovation is a provider of document capture solutions**
  - Headquartered in Eden Prairie, Minnesota
  - Provides capabilities for high-volume scanning, Web-based capture and check capture
- **Captovation technology expected to enhance Oracle's Enterprise Content Management solution**
  - Adds ability to capture mission-critical content for access inside business applications and processes
  - Creates integrated solution that helps customers reduce costs, streamline critical business processes and simplify regulatory compliance

ORACLE®

Strategic Importance to Oracle

- **Customers are seeking solutions to capture critical content**
  - Access information locked in paper documents
  - Convert paper to images to support the automation necessary for streamlining business processes
  - Create the audit trail necessary for regulatory compliance
  - Eliminate costly paper transportation and storage

- **Document capture is a critical component of ECM**
  - Paper that supports business processes represents a large portion of enterprise information assets
  - Customers want integrated, out-of-the-box enterprise content management solutions that include document capture

- **Combination expected to extend Oracle's leadership in ECM**
  - Acquisition delivers a comprehensive and integrated content management solution as part of Oracle Fusion Middleware
  - By adding document capture, Oracle will be the only vendor that can provide customers with a fully integrated solution for automating back office operations

Clearly Different

Only Oracle and Captovation can deliver ALL of the following:

✓	**An industry-leading offering for the full document lifecycle – capture to destruction**
✓	**Integrated document capture & content management as part of a comprehensive middleware platform**
✓	**Document capture embedded in best-in-class business applications**

ORACLE®

Expected Customer and Partner Benefits

- **Captovation customers**
  - Increased R&D investment in Captovation products
  - Investment protection, extension and enhancements as Captovation and Oracle provide better integration of complementary solutions
  - Access to Oracle's global support and services organizations
- **Oracle customers**
  - Ability to deploy a cost-effective, streamlined content management solution that manages documents through their lifecycle
  - Automates back office operation by capturing paper in support of key business processes
  - Helps create the audit trail required for regulatory compliance
- **Oracle and Captovation partners**
  - Work with a single vendor to address document capture and management of enterprise content
  - Offer customers a fully integrated document capture, ECM and process automation solution for streamlining key enterprise processes
  - Increased support and investment in Captovation and Oracle Enterprise Content Management products, worldwide resources and partner ecosystem, and expanded opportunities to partner

ORACLE

Weatherford International Case Study

Reducing Accounts Payable Costs Through Distributed Capture

Business Challenges	• Invoices arrive at locations around the world and mailed to regional offices • High processing costs due to mailing delays, lost invoices and cumbersome invoice correction process • Slow retrieval of archived invoices, local offices making unauthorized copies for quicker access
Solution	• Captovation Capture, Captovation Web Capture and Oracle Imaging and Process Management
Business Results	• Captovation Web Capture deployed to users at remote offices capturing invoices and supporting docs • Distributed scanning and indexing enabled faster processing • Instantaneous access to archived invoices • SOX compliance through auditing and automated workflow approvals

ORACLE

Land O'Lakes Case Study

Automating Processes With Capture and Content Management

Business Challenges	• Paper-based documentation for account payable, fixed assets, credit and human resources • Difficult to retrieve paper and microfilm supporting documents • Time intensive internal and external web site maintenance
Solution	• Captovation Capture, Oracle Imaging and Process Management and Oracle Universal Content Management
Business Results	• Capturing 180,000 documents per day • System saved an estimated $250,000 in the first year through improved efficiencies and reduced headcount • Immediate access to transactional content managed in a disaster-resilient environment • Self-service website maintenance with IT provided components, templates, navigation, etc.
