Source: "3.7x Faster Provisioning" encompasses creating an account, provisioning/configuring software, setting up load balancing, provisioning a public IP address, and setting up monitoring and alerts—all in 1 hour, 55 min with Oracle platform and infrastructure services vs. Amazon Web Services at 7 hours, 5 min. "Zero Commands Required" references Oracle’s platform services requiring no command-line interfaces to patch, backup, or restore the whole environment, or scale Weblogic Server up/down. "10x Lower Archive Storage Cost" is based on the price of Oracle’s archive storage service vs. Amazon’s Glacier as of 9/14/15.
