

ORACLE DIGITAL CONNECT

CONNECTING EXPERIENCES

Digital leaders are expert at creating and facilitating interactions by connecting people, places and things.

To turn those simple connections in interactions valuable for business you need a Digital Platform that's effortlessly integrated.

Today, Integrated IT capabilities are becoming a competitive advantage to respond to customer desires in real time with innovative offerings.

ORACLE DIGITAL CONNECT

accomplishes the promise of the **Connected Enterprise** delivered, ensuring that information is where it is needed, in the right format, accurately and securely.

How do you become a connected enterprise that easily integrates applications and data sources across on-premises, cloud, mobile and a growing set of intelligent devices?

You need an agile yet comprehensive foundation for integration.

All of your apps, data and process should be available as services and must be able to communicate seamlessly and in real time.

It's as simple as that.

BE AT THE HEART OF EVERY DIGITAL INTERACTION THAT MATTERS TO YOUR CUSTOMER TO

**Boost**

your business agility and launch new services faster by reducing integration barriers

**Scale Up**

your business extending to the Cloud your integration technology

**Exploit**

your company's data capital keeping pace the data interoperability everywhere

**Empower**

business users to drive innovation adopting Intuitive User Experience for digital integration

**Improve**

business users to drive innovation adopting Intuitive User Experience for Digital Integration

**Increase**

confidence in data used for business and take better decisions enabling Data Governance

The **Oracle Digital Connect** solution is available in both, cloud and on-premise computing environments. By choosing digital integration components in the Oracle Cloud Platform you can rapidly subscribe and access those key integration capabilities that put you at the heart of every interaction and experience.

Your digital transformation can then continue at the pace you and your customers wish, as much more of the setup and maintenance to support your digital services is automatically handled by the Oracle Cloud Platform.
