Improve Your Maintain to Optimize Process

Oracle Maintenance Cloud

With shrinking margins and decline in reactor operating times, firms need to operate their assets with greater efficiency, uptime, and effectiveness. Plant managers are asked to “do more with less,” with severely reduced resources.

THE PRESSURE IS ON
Asset intensive firms of all sizes, locations, and industries face unprecedented challenges in today’s changing global economy.

THE DILEMMA
A simplified setup helps you quickly set up supply chain common components, as well as basic features for maintenance, inventory management, and cost management to enable efficient and productive plant maintenance operations… without IT complexity. Leave the daily IT management to Oracle and gain time and cost savings with the Oracle Cloud.

THE FACTS
Deploy fast Save your IT resources

1/3
The global cloud computing industry is growing 5 times faster than the global IT industry

1/3
50% of all data will exist in or pass through the cloud by 2020
