

# Finance and HR: A Marriage Made in Digital Healthcare Cloud Heaven

**Consistent, Modern, Unified:** A Harmonious User Experience for Your Healthcare Organization

## Single User Experience

Deliver a consistent look, feel, workflow, and reporting platform.

No matter what the role, all employees have a familiar, consumer-like experience that can help reduce training costs and improve productivity and collaboration.

## Cross-Functional Reporting and Analysis

Make better decisions with unified data from HCM and ERP.

Complete, comprehensive data provides historical analysis and real-time data for managing daily operations; and more-accurate insight for forward-looking projections.

## More Efficiencies and More-Effective Control

Keep data safe with comprehensive security.

Oracle ERP and HCM cloud solutions are built from the ground up to work together to provide enhanced identity controls, streamlined processes, and the most secure cloud platform available for today's healthcare organizations.

## Faster, Easier Innovation

Achieve value faster, with ongoing updates.

Regular and comprehensive updates across ERP and HCM solutions provide innovation and agility to quickly respond to new regulatory initiatives, mergers and acquisitions, and the challenges of rapid growth within your healthcare organization.

## A Single, Proven Provider

Get a unified solution built for healthcare-organization success.

With over 30 years dedicated to healthcare technology innovation, Oracle is committed to your success, providing efficient, secure, data-driven and collaborative ERP and HCM digital healthcare cloud solutions that streamline operations and improve decision-making and productivity.

**The Ingredients for a Happy Marriage Between Finance and HR**
