Oracle MICROS Workstation 6 Family

ORACLE®
Retail

The Oracle MICROS Workstation 6 Family offers a group of sleek devices that provide outstanding performance for point-of-service (POS) transactions, delivering an advanced consumer experience.

The Oracle MICROS Workstation 6 Family expands Oracle's integrated portfolio of store devices by serving as a focal point in driving improved consumer engagement. These solutions have been designed as an aggregation point to conveniently deliver digital content to both store associates and customers, while boasting superior overall POS performance.

The Oracle MICROS Workstation 6 Family is designed for the unique challenges of the retail industry, providing maximum reliability with no moving parts, and utilizing the latest ultra-low power components to be more environmentally and economically responsible.

Engineered specifically for "built for purpose" operation, the Oracle MICROS Workstation 6 Family provides a clean, secure, and integrated device hardened to withstand the day-to-day use common in POS environments.

Oracle MICROS Workstation 6 modernizes consumer interactions by providing store associates with new features, transforming the POS encounter into a truly differentiated check out experience.

Designed For Retail Applications

The Oracle MICROS Workstation 6 Family comes preinstalled with the latest OS from Microsoft. Windows 10 IoT Enterprise users can take advantage of the rich features of Windows 10, including multi-touch capability and the clean, modern style of the Windows 10 application user interface.

The hardware is ready to deploy with Oracle Retail Xstore Point-of-Service right out of the box.

A Next-Generation Workstation

Oracle MICROS Workstation 6 is dependable, attractive, and versatile. It offers tightly controlled quality to deliver superior POS performance and reliability for your busy retail environment.

KEY BENEFITS

- Provides maintenance-free reliability and extended product life
- Offers adaptability to changing operational requirements to optimize ROI
- Improves efficiency with simple, streamlined installation
- Provides a modern appearance with its sleek look and feel
- Enhances the customer experience with innovative customer engagement features

ORACLE®

OUTSTANDING RELIABILITY

- Time tested, spill resistant and operational across a wide range of temperatures

- Thermally bonded processor dissipates heat, allowing for passive cooling

- No moving parts, for long-lasting durability

ADAPTABILITY

- 15.6-inch wide-screen full high-definition display with multi-touch, projected capacitive touchscreen

- Multiple mounting options including adjustable stands, and industry-standard VESA to allow pole or wall mount for maximum flexibility

- Adjustable stand has expansion capability to accommodate printer power supplies, a USB expansion module for expanded I/O capability, and multiple mounting options for integrated customer displays

- Wireless connectivity available

FRESH DESIGN

- Sleek styling enhancing the brand experience in store with a smooth appearance, low profile, and small footprint

- Constructed of aluminum alloy and hardened materials to provide a strong casework that will maintain an attractive finish for years

SERVICE AND WORKFORCE INNOVATION

- Modernizes experiences by delivering digital content to both staff and customers, from showing a training video to a new staff member to presenting a promotion or product inventory position to a customer

- Integrated design and user experiences give consistent content delivery across multiple devices, from tablets to workstations
