Robust Sales and Use Tax Engine

Automate sales and use compliance and control costs and risks with a single tax engine.

Company Overview

Automatic Data Processing, Inc. (ADP), with nearly US\$9 billion in revenues and more than half a million clients, is one of the world's largest providers of business outsourcing solutions. ADP offers a wide range of HR, payroll, tax, benefits administration, and transaction tax automation solutions from a single source.

ADP's transaction tax calculation and compliance solutions are used by corporate tax departments at some of the world's largest and most prestigious companies. Our Tax and Government Affairs Organization tracks and analyzes tax law changes in approximately 11,000 state and local jurisdictions in the United States and 240 countries around the globe.

With Taxware Enterprise, the internal controls offered are a critical component of Sarbanes-Oxley Section 404 compliance. In addition, built-in functionality supports audit defense and complies with changing transaction tax laws. Taxware Enterprise benefits include:

- Recognition by the Streamlined Sales Tax Governing Board as a certified automated system when used with TaxSolver
- Comprehensive Taxability Matrix with integrated global research covering thousands of products, services, entities, and uses supporting over 200 million tax rules
- Automated reporting processes
- A cost-effective, hosted automated transaction tax solution

Validated Integration

PeopleSoft Enterprise

Through the Oracle PartnerNetwork, partners with validated integrations are able to provide customers with standards-based product integrations, tested and validated by Oracle. Customers benefit from improved risk management and smoother upgrade capability, leading to a lower total cost of ownership and greater overall satisfaction.

Integration Overview

Taxware Enterprise 8.1 integrates with Oracle's PeopleSoft Enterprise 9.1 to automatically calculate transaction taxes for sales, purchases, leases, and rentals. The Taxware Enterprise integration with PeopleSoft Enterprise offers:

- Exemption certificate tracking

- A configured PeopleSoft Enterprise system to provide the majority of tax information
- Improvement in accuracy of sales and use tax compliance
- Reduced audit exposure and liability
- Real-time access to tax data

Integration Details

Taxware Enterprise integrates with Oracle’s PeopleSoft Billing, PeopleSoft Order Management, PeopleSoft Payables, and PeopleSoft Purchasing for tax jurisdiction lookup and tax calculation in the U.S. and Canada. The integration is accomplished via Oracle’s PeopleSoft Integration Broker. The Taxware Enterprise interface is also a Simple Object Access Protocol (SOAP) service that wraps the Taxware Enterprise system for geocode lookup and tax calculation.
