### Company Overview

HighPoint Technology Solutions, Inc. has extensive experience in the higher education industry delivering value-driven solutions that address the evolving needs of colleges and universities. The service-level expectations of students, faculty, and higher education constituents are more demanding today than they were even 5 years ago. At HighPoint, we've assisted many institutions of higher learning to successfully implement and adopt Oracle's Campus Solutions to better enable them to meet and exceed the higher expectations of today's market demands.

HighPoint provides mobile technology and social media solutions for Oracle's PeopleSoft applications. HighPoint Mobile is integrated with Campus Solutions 9.0 via smart phone and mobile devices such as the Apple iPhone and Apple iPad; Android and Blackberry phones; and other tablets/mobile phones.

### Integration Overview

HighPoint Mobile for PeopleSoft Enterprise Campus Solutions complements the services that customers can provide their constituents by providing their students, faculty, administrators, and parents with the ability to immediately obtain and process important student, faculty, and campus information through an efficient and flexible user interface. With our open mobile framework and integration to Campus Solutions, we have integrated the main student and faculty information and created a lightweight, fast, and easy way for customers to view important information in Campus Solutions.

We understand the relationship among technology, social media, and campus life. HighPoint Mobile leverages the integrated Campus Solutions data and uses technology to share academic and campus life information with students, faculty, administrators, and other members of the campus community.

The features delivered with HighPoint Mobile include important self-service functions in the following Campus Solutions modules: Recruiting and Admissions, Campus Community, Student Records, Student Financials, Financial Aid, and Campus Self-Service.

### Key Features and Benefits

- Integration with Oracle's PeopleSoft Enterprise Campus Solutions
- Student self-service functionality

### Validated Integration

PeopleSoft  
Enterprise Campus  
Solutions

Through the Oracle PartnerNetwork, partners with validated integrations are able to provide customers with standards-based product integrations, tested and validated by Oracle. Customers benefit from improved risk management and smoother upgrade capability, leading to a lower total cost of ownership and greater overall satisfaction.

- User-friendly configuration
- Faculty/administration self-service functionality
- Guest/parent access
- Social networking features

### Integration Details

HighPoint Mobile for PeopleSoft Enterprise Campus Solutions is an internet, Web-based solution installed on a Web server. The inputs, outputs, and flow of data within the integration communicate through the Web server with Campus Solutions. HighPoint Mobile leverage PHP, open source technologies, and your Oracle's PeopleSoft technology investment to deliver content that is efficient and easy to navigate.
