### Company Overview

Nexo CS Informática is a software company in Brazil specializing in developing systems that enable the information management of Health and Safety at work.

Established in 1996, Nexo CS Informática launched the first version of its Nexo Saúde Ocupacional software in 1997. It is now available in a fifth version and called Nexo Gestão Integrada.

Nexo CS Informática customers can be found throughout Brazil, Chile, and Peru and include companies that use the system directly to control their occupational health and business security departments such as in the mining, chemistry, and communication industries.

In 2008, as part of an expansion program, Nexo CS established a new branch of the company in México City.

Nexo Gestão Integrada is available in Portuguese and Spanish. It runs on the Oracle Database providing customers more flexibility and database control.

Nexo CS Informática continues to meet the demands of the software market, specifically in Health and Safety at work, by utilizing the latest technology tools available.

Oracle E-Business  
Suite

**Through the Oracle PartnerNetwork, partners with validated integrations are able to provide customers with standards-based product integrations, tested and validated by Oracle. Customers benefit from improved risk management and smoother upgrade capability, leading to a lower total cost of ownership and greater overall satisfaction.**

### Integration Overview

The integration of Nexo Gestão Integrada version 5.4 with Oracle E-Business Suite 12.1.2 utilizes the Oracle Human Resources Management System module and manages information from occupational health and safety of employees at work. The integration leverages Oracle SOA Suite, using BPEL flows and procedures for notifications made available from Oracle (alerts and business events).

Integration of Nexo Gestão Integrada with Oracle E-Business Suite helps with the following processes:

- Registering employees and providing updated information for registration and control of medical and occupational care
- Transfers between organizations, promotions, and the automatic association of risk as defined in the organizational structure

- Automatically programs medical exams as definition of user (date of admission, date of birth, or conclude exam)
- Automatically generates historical issuing of legal reports
- Automatically transfers employee records for admission process (Applicants - Employees)

### Integration Details

Nexo Gestão Integrada is a complete, specialized solution designed to streamline and optimize processes in the areas of workplace environment and safety, occupational health, and social security management.

Nexo Gestao Integrada (NGI) integrates the following data:

- Organizations and hierarchies
- Jobs and positions
- Employees
- Applicants
- Assignments of employees and applicants
- Personal and contract data of employees and applicants

The information originates in Oracle Human Resources Management System and through notifications, business events, and BPEL flows, that data is integrated with the Nexo system business rules.
