Real-Time Data Replication and Change Data Capture

Company Overview

BackOffice Associates, LLC, is a provider of data quality, data governance, and data migration solutions for Oracle, SAP, and other enterprise resource planning (ERP) vendors. HiT Software, a BackOffice Associates-owned company, provides data integration technology to assist in data availability for analytic, ERP, and other operational systems. HiT Software's DBMoto Data Integration and Change Data Capture solution makes data updates available in real time by performing data replication and synchronization across major databases, including those from Oracle, MySQL, IBM DB2, Microsoft SQL Server, Informix, and others. The DBMoto solution fits the midmarket where IT resources, budget, and time are limited. DBMoto is used to support data availability for Oracle E-Business Suite, Oracle's JD Edwards solutions, and other applications.

Integration Overview

BackOffice Associates and HiT Software together offer DBMoto for Real-Time Data Availability and Change Data Capture across multiple heterogeneous databases for application data updates, business intelligence, reporting, data warehousing, and more.

Features include:

- Neutral platform
- Change data capture
- Support of multiple heterogeneous databases
- Open APIs for easy integration

Integration Details

- Due to its ease of implementation with Oracle E-Business Suite, DBMoto 7.1 quickly moves data from legacy and disparate data sources into Oracle E-Business Suite 12.1 via the open interface integration point.
- The data tables to be migrated into Oracle E-Business Suite can be automatically mapped by the tool or have a customized mapping orchestrated by the user.

Validated Integration

Oracle E-Business Suite

Through the Oracle PartnerNetwork, partners with validated integrations are able to provide customers with standards-based product integrations, tested and validated by Oracle. Customers benefit from improved risk management and smoother upgrade capability, leading to a lower total cost of ownership and greater overall satisfaction.
