TimeLink Direct provides information to ensure that your organization is putting the right people in the right place at the right time.

Company Overview

TimeLink is a premier provider of workforce management and data collection solutions that enable organizations to both enhance employee productivity and leverage their investment in technology.

In today's business environment, an organization's workforce is its most valuable corporate asset—and often its most expensive. In many industries, labor resources can account for as much as 80 percent of total operating costs. This represents a significant opportunity for cost savings and productivity enhancement. TimeLink solutions leverage technology to uncover the value of the workforce, streamline your existing business processes, and provide tools to enhance productivity.

Integration Overview

With TimeLink Direct, customers can automate the collection of time and attendance information and integrate with Oracle's PeopleSoft Time and Labor for processing. Customers can choose from a variety of TimeLink time collection technologies, including badge-based devices, biometrics, telephony/ interactive voice response, PDAs, and touch screen kiosks. TimeLink's workforce integration platform for PeopleSoft Time and Labor enables customers to

- Minimize manual data entry with diverse interaction technologies, dramatically increasing productivity and operational efficiencies
- Leverage the investment in PeopleSoft Time and Labor with a front end for automating data entry and maximizing payroll accuracy
- Maximize the timeliness and informational integrity of mission-critical workforce data with validated integration with PeopleSoft Time and Labor

Integration Details

TimeLink Direct provides bidirectional integration between its approved data collection technologies and PeopleSoft Time and Labor. The integration is built on PeopleSoft AppConnect—utilizing XML-based application messaging via PeopleSoft Integration Broker. PeopleSoft Time and Labor publishes XML messages to TimeLink

Validated Integration
PeopleSoft Enterprise

Through the Oracle PartnerNetwork Application Integration Architecture for Partners Initiative, partners with validated integrations are able to provide customers with standards-based product integrations, tested and validated by Oracle. Customers benefit from improved risk management and smoother upgrade capability, leading to a lower total cost of ownership and greater overall satisfaction.

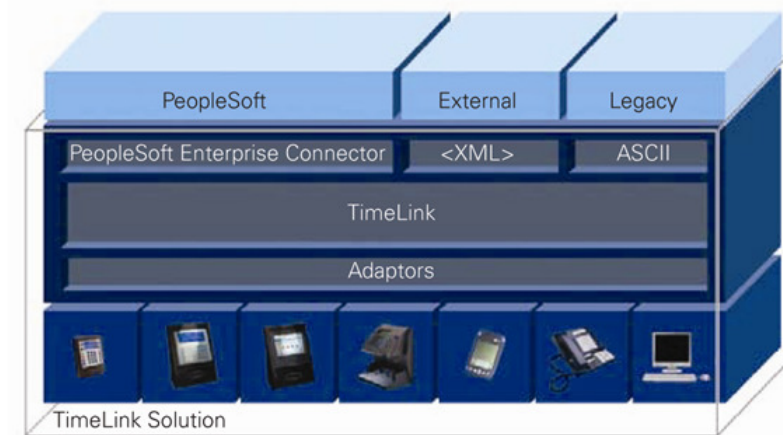

Availability

2975 Westchester Avenue

Purchase, NY 10577
Tel: +1.914.385.1252
Fax: +1.914.834.9414
Email: info@timelink.com

Direct, which parses the information, stores it, and communicates relevant information to the appropriate data collection devices. From the same devices, TimeLink Direct collects validated transactions from users, including in, out, meal, break, transfers (pay codes, departments, and tasks), and swipe-and-go (a transaction without “in” or “out” defined). The punched or elapsed time transactions are formatted as XML messages and transferred via HTTP(S) to PeopleSoft Time and Labor for additional processing.

Support
