Through the Oracle PartnerNetwork, partners with validated integrations are able to provide customers with standards-based product integrations, tested and validated by Oracle. Customers benefit from improved risk management and smoother upgrade capability, leading to a lower total cost of ownership and greater overall satisfaction.

Advanced Integration Solutions for Primavera P6 Enterprise Project Portfolio Management

Pipeline’s Maxavera Provider for Primavera Gateway solution enables more than 50 prepackaged integration scenarios for Oracle’s Primavera P6 Enterprise Project Portfolio Management, to be deployed with Oracle’s Primavera Gateway server.

Company Overview
Pipeline is an industry-leading software and services company offering solutions that enable asset and project-intensive organizations to streamline and optimize their maintenance and capital planning, scheduling, and work execution processes. Pipeline solutions are utilized by industry leaders worldwide in energy, utilities, construction, and defense to improve maintenance and project controls for a global portfolio of assets valued at more than US $1 trillion.

Integration Overview
Maxavera is a leading integration solution for Primavera P6 Enterprise Project Portfolio Management that has been in the market for nearly a decade. Over the years, many scenario-specific integration plug-ins have been developed on the Maxavera platform for Primavera P6 Enterprise Project Portfolio Management including Oracle E-Business Suite, SAP PM, SAP PS, Maximo, Ventyx AssetSuite, and many others. These plug-in business solutions are called Maxavera iPacks (integration packages).

Maxavera Provider for Primavera Gateway is a special version of Maxavera that has been adapted to work with Primavera Gateway. This enables Primavera Gateway customers to utilize any of Maxavera’s more than 50 iPacks to rapidly address their integration requirements with the industry’s most proven, complete library of prepackaged integration scenarios. With this solution you can:

- Deploy a rapid, reliable, proven integration for Primavera P6 Enterprise Project Portfolio Management
- Create best-of-breed solutions for integrated project controls
- Optimize capital projects, maintenance operations, and plant shutdown/turnaround/outages (STO)
- Eliminate manual data entry and increase data accuracy
- Leverage Primavera Gateway for enterprise integration
Integration Details
Maxavera Provider for Primavera Gateway delivers immediate value to Primavera Gateway, often delivering 90 percent or more of your business requirements the same day it is installed. It includes hundreds of predefined best-practices field mappings, rules, transformation logic, and runtime options that have been refined through years of delivering real-world solutions to companies around the world.
