Host-centric data collection residing on System I5

Real-time, scalable, and reliable performance

Company Overview

ICS RF-SMART is the leading line of wireless, mobile, and RFID solutions for Oracle's JD Edwards World. Featuring robust, configurable, JD Edwards-specific functionality, RF-SMART provides end-to-end visibility and control throughout manufacturing, distribution, warehousing, and route-delivery environments using wireless, mobile, and RFID technology. ICS is also an authorized reseller of JD Edwards solutions and offers a complete range of JD Edwards services. Since 1982, ICS has been recognized for technical and service excellence.

Integration Overview

RF-SMART's integration to JD Edwards World provides real-time, scalable, and reliable performance for barcode and RFID collection, data validation, and transaction execution. Our incredibly stable and reliable architecture minimizes the number of potential system failure points, reduces the cost of ownership, and speeds investment recovery. There are no servers to buy, no additional operating systems to support, no new skill sets to acquire, and no staff to hire. If you know JD Edwards World, you know RF-SMART for JD Edwards World.

Integration Details

RF-SMART resides directly on System I5. No replicated data is necessary. Transactions are collected and edited via configurable prompts. JD Edwards is updated in real time, using standard JD Edwards World server programs. Dream Writer options control the prompts, and function key exits provide item inquiries. History and performance data is collected. Back-office or large-screen programs are also provided to control the processes, and view and analyze JD Edwards World and RF-SMART data.

**Through the Oracle
PartnerNetwork Application
Integration Architecture for
Partners Initiative, partners with
validated integrations are able
to provide customers with
standards-based product
integrations, tested and
validated by Oracle. Customers
benefit from improved risk
management and smoother
upgrade capability, leading to a
lower total cost of ownership
and greater overall satisfaction.**
