You can use the one view reports to review, understand take action about consigned and vendor managed inventory that is received, consumed, replenished and billed.

The JD Edwards EnterpriseOne One View Reporting for Outbound Inventory Management enables you to:

- Know your top customers and items based on inventory consumption or value of inventory
- Understand the inventory consumption pattern of your customers
- Review inventory that is received but not consumed at your customer's location
- Review consumed inventory that has not been replenished or billed
- Negotiate better inventory consumption terms based on age of inventory
- Track outbound inventory in real time at your customer's location
- Review age of inventory for items at customer location

JD Edwards EnterpriseOne One View Reporting

JD Edwards EnterpriseOne One View Reporting enables end users to access data for simple to sophisticated reports using JD Edwards EnterpriseOne interactive applications with Oracle BI Publisher layout reporting and distribution features. One View Applications combine essential transaction data and master data, including associated descriptions and category codes, previously not available. Users have the ability to view data in the exact layout they desire using all the advanced capabilities of Oracle BI Publisher. One View Reporting provides a large library of pre-defined reports designed to answer the most common business questions. Delivered reports can be personalized by end users as needed and additional reports can be defined without IT support. The complexity of data models, table joins and business views are masked from the end user to ensure intuitive reporting experiences. One View Reporting provides users a simplified and clear view of the essential data necessary to effectively execute business processes.

The power of One View Reporting comes from the extensive number of applications, reports and report components. These solutions address the most common and highly demanded business questions, enabling you to realize value on day one.
