with JD Edwards EnterpriseOne**

Name
Title

The following is intended to outline our general product direction. It is intended for information purposes only, and may not be incorporated into any contract. It is not a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decisions. The development, release, and timing of any features or functionality described for Oracle's products remains at the sole discretion of Oracle.

Agenda

- Collaboration Solution Overview
- What is Supplier Self Service?
- What is Buyer Workspace?
- Collaboration Example of Buyer & Supplier Portal Exchange

Business Challenges

Meet Performance Targets

- How can I partner with suppliers to reduce the cost of doing business?
- How can I reduce the costs of managing supply and replenishment?

Increase Responsiveness

- How can I eliminate paper and cut cycle time to improve service?
- How can I eliminate info gaps between procurement, suppliers, and internal stakeholders?

Meet Financial Targets

- How can I manage payment to improve cash flow & margin?

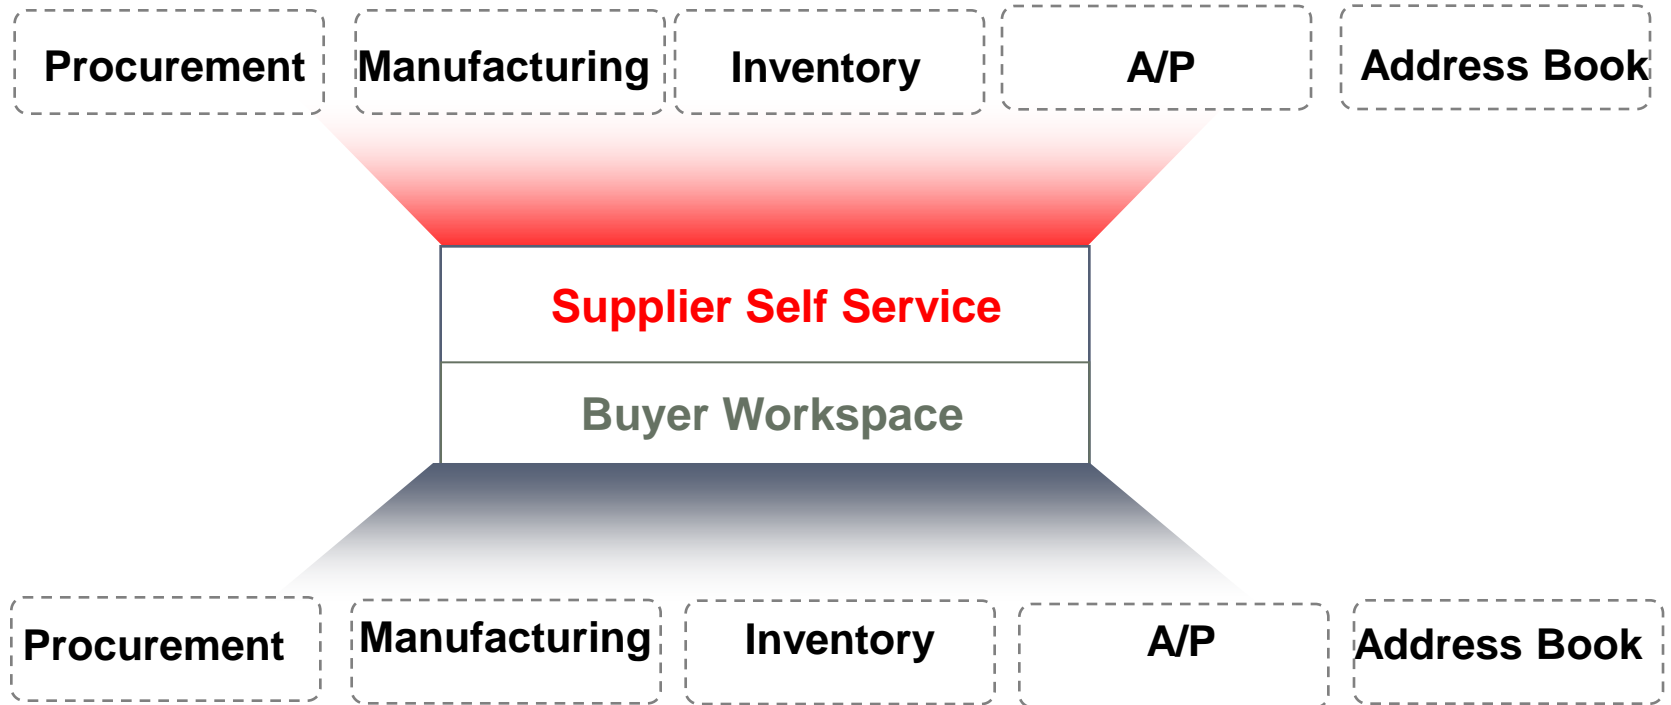

Expand Collaboration

- How can I drive collaboration across the entire supply-base?
- How can I scale collaborative processes across the enterprise?
